| Summary

Summaries are made up of disclosure requirements known as 'Elements'. The Elements are numbered in Sections A—E (A.1—E.7).

This summary contains all the Elements required to be included in a summary for this type of securities and issuer. Because some Elements are not required to be addressed there may be gaps in the numbering sequence of the Elements.

Even though an Element may be required to be inserted into the summary because of the type of securities and issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of 'not applicable'.

Civil liability attaches to those persons who are responsible for this summary, including any translation thereof, but only if the summary is misleading, inaccurate or inconsistent when read together with the other parts of the Prospectus or it does not provide, when read together with other parts of the Prospectus, key information in order to aid Investors when considering whether to invest in Shares.
A.2	Use of Prospectus by financial intermediaries	The Company and the Directors consent to the use of the Prospectus, and accept responsibility for the content of the Prospectus, with respect to subsequent resale or final placement of securities by financial intermediaries from the date of the Prospectus until the close of the Offer. B.36	Regulatory status	<p>The Company is not authorised by the FCA. However, the Company has registered itself as a small registered internally managed alternative investment fund manager under the Alternative Investment Fund Managers Regulations 2013.</p>

B.37	Typical investor	The profile of a typical Investor is a UK tax resident individual who seeks a venture capital strategy with a focus on the payment of regular dividends from realisations of growth capital investments with sufficient income and capital available to be able to commit an investment in the Company for over five years and who is attracted by the income tax relief available for a VCT investment.
B.38	Investment of 20% or more in a single underlying asset or investment company	Not applicable. The Company will not invest more than 20% of its gross assets in a single underlying asset or investment company (either at the point of investment or as an addition to an existing investment).

B.40	Applicant's service providers	<p><i>Investment Management Agreement</i></p> <p>Under an investment management agreement between the Company and the Manager dated 9 May 2018 (the "IMA") the Company has agreed to appoint the Manager as its Alternative Investment Fund Manager, with the Manager agreeing to provide management services to the Company on a discretionary basis in respect of the investments to be made by the Company in accordance with the provisions of the IMA. The Manager will also provide administration services to the Company.</p> <p>Under the IMA, the Manager is entitled to an annual management fee of 2% of the net asset value of the New "B" Share Pool. The annual management fee is payable quarterly in arrears.</p> <p>In relation to the Annual Running Costs of the Company (see below), it has been agreed that for an initial period of three years (commencing immediately on the first day of the relevant quarter of the Company in which the first New "B" Shares have been issued under the Offer) all of those costs will be allocated to the New "B" Share Pool only, and after the end of that period such costs will be allocated to the Ordinary Share Pool and the New "B" Share Pool pro-rata to their respective net asset value. The Manager and the Company have further agreed to cap such costs allocated to the Ordinary Shares at 3% of the net asset value of the Ordinary Share Pool, and those costs allocated to the New "B" Shares at 3% of the net asset value of the New "B" Shares Pool. Annual Running Costs means the annual running costs and expenses incurred by the Company in its business including irrecoverable VAT but excluding (a) exceptional and extraordinary costs; (b) any performance fees in relation to any class of Shares; and (c) any costs relating solely to the making, holding or realisation of investments in the Ordinary Share Pool or the New "B" Share Pool.</p>

		<p>The Manager will also receive a Performance Incentive Fee in relation to the New “B” Shares Pool of an amount equal to 20% of the Shareholder Proceeds arising in respect of any performance period, provided that the payment of such a fee shall also be conditional upon (i) a return being generated on the New “B” Share Pool for New “B” Shareholders in respect of that performance period of more than 5% per annum (pro-rated if that period is less than a year) and (ii) that such a return calculated for the period from the date of the IMA to the end of the relevant performance period exceeds 5% per annum.</p> <p>Shareholder Proceeds are, in relation to the New “B” Shares and calculated on a per Share basis in relation to the relevant Share, all amounts paid by way of dividend or other distributions, share buy backs, proceeds on a sale or liquidation of the Company and any other proceeds or value received or deemed to be received by the holders of the relevant Shares (excluding any income tax relief on subscription).</p> <p>Further to a side letter to the IMA, the Manager has agreed that the management of investments in the Ordinary Share Pool shall be delegated by the Manager back to the Independent Board for the duration of the IMA, or (if shorter) the period of the existence of the Ordinary Share Pool.</p> <p>Under the terms of the IMA, the Manager has the right to appoint a director and an observer to the Board.</p> <p>The Manager’s appointment under the IMA will take effect on the date on which the first New “B” Shares are issued and will continue until terminated by either party giving to the other not less than 12 months’ previous written notice at any time after the fifth anniversary of the date of the IMA, subject to earlier termination in certain circumstances.</p> <p><i>Offer Agreement</i></p> <p>The Manager will act as promoter to the Offer and will pay all the Company’s costs and expenses of or incidental to the Offer and Admission (including commission payable to intermediaries), in return for which it will receive a Promoter Fee on the value of each application for New “B” Shares accepted by the Company.</p>
B.41	Regulatory status of the Manager	The Manager is authorised and regulated by the Financial Conduct Authority. The Manager will act as the Alternative Investment Fund Manager to the Company.

B.42	Calculation of net asset value	<p>The Manager will be responsible for the calculation of the respective NAVs of the Ordinary Shares and the New "B" Shares in accordance with the accounting policies of the Company (the Board being responsible for the valuation of the unquoted investments in the Ordinary Share Pool and the Manager being responsible for the valuation of the investments in the New "B" Share Pool). The NAV of a Share is calculated and is published at least every three months through a Regulatory Information Service.</p> <p>Unquoted investments will be valued at fair value in accordance with the IPEVC Valuation Guidelines. Investments in AIM and NEX-quoted shares companies will be valued at the prevailing bid price.</p>
B.43	Cross liability	<p>The Company is not an umbrella collective investment undertaking. Investors should be aware, however, that although the Articles contain provisions designed to allocate the assets and liabilities of the Company between the different share classes, such provisions cannot ring fence the assets allocated to one share class from the liabilities of the other share class as far as third parties are concerned (for example a creditor of the Company).</p>
B.44	Absence of financial statements	<p>Not applicable. The Company has commenced operations and published financial statements.</p>
B.45	Portfolio	<p>As at the date of this document, the investment portfolio in the Ordinary Share Pool of the Company consists of 11 companies, with total investment (at cost) of just over £5.5 million. B.46	Net asset value	<p>As at 31 March 2018, being the latest date prior to this document at which the Company has published its NAV, the Company's unaudited NAV per Ordinary Share was 64.4 pence.</p> <p>No funds for investment have been raised to date in relation to the New "B" Shares, and no investments have been made in relation to that share class.</p>

Section C — Securities

Element	Disclosure requirement	Disclosure
C.1	Types and class of securities	The Company will issue New “B” Shares under the Offer. The ISIN of the New “B” Shares is GB00BG13MH08, the SEDOL is BG13MH0 and the LEI is 213800VP9N3LOQZ22441.
C.2	Currency	Sterling.
C.3	Number of securities to be issued	The Company will issue up to £10 million of New “B” Shares in the capital of the Company pursuant to the Offer, with an over-allotment facility for up to a further £10 million of New “B” Shares.
C.4	Description of the rights attaching to the securities	<p><u>As regards Income:</u></p> <p>The Shareholders shall be entitled to receive such dividends as the Directors resolve to pay out in accordance with the Articles.</p> <p>Under the Articles of the Company, all the assets of the Company and all the liabilities of the Company will be allocated either to the Ordinary Share Pool or the New “B” Share Pool. The Ordinary Shares will be entitled to the economic benefit of the assets allocated to the Ordinary Share Pool and the New “B” Shares will be entitled to the economic benefit of assets allocated to the New “B” Share Pool.</p> <p>Therefore, although the rules in the CA 2006 and elsewhere in relation to the payment of distributions will be applicable to the Company on a company-wide basis, the income arising on the portfolios will belong to one or the other of the share classes depending on which portfolio generated the income.</p> <p><u>As regards Capital:</u></p> <p>Similarly, the capital assets of the Company will be allocated to either the Ordinary Share Pool or the New “B” Share Pool. On a return of capital on a winding-up or on a return of capital (other than on a purchase by the Company of its Shares) the surplus capital shall be divided amongst the holders of the relevant share class pro rata according to the number of Shares of the relevant class held and the aggregate entitlements of that Share class. The Ordinary Shares will not be entitled to any capital assets held in the New “B” Share Pool and the New “B” Shares will not be entitled to any capital assets held in the Ordinary Share Pool. In relation to the purchase by the Company of its Shares, the purchase of Ordinary Shares may only be financed by assets in the Ordinary Share Pool and the purchase of the New “B” Shares may only be financed by assets in the New “B” Share Pool.</p>

		<p><u>As regards voting and general meetings:</u></p> <p>Subject to disenfranchisement in the event of non-compliance with a statutory notice requiring disclosure as to beneficial ownership, each Shareholder present in person or by proxy shall on a poll have one vote for each Share of which he is the holder. The Ordinary Shareholders may not be entitled to vote on certain matters which concern the New "B" Share class only and vice versa.</p> <p><u>As regards Redemption:</u></p> <p>None of the New "B" Shares or the Ordinary Shares are redeemable.</p> <p>The Articles provide that reserves (whether created upon the cancellation of the share premium account arising from the issue of Ordinary Shares or New "B" Shares or otherwise) may also be used for the benefit of the other share class. While this will not transfer any net asset value between the different share classes, it will permit those reserves to be treated as distributable profits on a Company-wide basis such that on an accounting basis dividends and share buybacks in respect of both share classes may be facilitated by the availability of those reserves.</p>
C.5	Restrictions on the free transferability of the securities	Not applicable. There are no restrictions on the free transferability of the Shares.
C.6	Admission	Application will be made to the UK Listing Authority for the New "B" Shares to be admitted to the premium segment of the Official List and to the London Stock Exchange to be admitted to trading on the London Stock Exchange's main market for listed securities. It is expected that such admissions will become effective, and that dealings in the New "B" Shares will commence, within ten Business Days of their allotment.
C.7	Dividend policy	<p>Generally, a VCT must distribute by way of dividend such amount as to ensure that it retains not more than 15% of its income from shares and securities.</p> <p>It is the intention of the Board and the Manager to commence the payment of regular dividends as soon as possible after the issue of the New "B" Shares, and will also aim to pay special dividends where significant realisations occur from the sale of its portfolio assets.</p>

Section D — Risks

Element	Disclosure requirement	Disclosure
D.2	Key information on the key risks specific to the issuer	<p>Key risk factors relating to the Company are:</p> <ul style="list-style-type: none"> • There can be no guarantee that the investment objectives of the Company will be achieved or that suitable investment opportunities will be available. The success of the Company will depend on the Board's ability (and in the case of the New "B" Shares, the Manager's ability) to identify, acquire and realise investments in accordance with the Company's published investment policy and there can be no assurance that either the Board or the Manager will be able to do so. • The past performance of the Company or the Manager is no indication of future performance. • The market for stock in smaller companies is often less liquid than that for stock in larger companies, bringing with it potential difficulties in acquiring, valuing and disposing of such stock, and as a minority investor, the Company may not be able fully to protect its interests. • Investment in unquoted companies and in AIM / NEX quoted companies, by its nature, involves a higher degree of risk than investment in companies traded on the main market for listed securities of the London Stock Exchange. In particular, smaller companies often have limited product lines, markets or financial resources and may be dependent for their management on a smaller number of key individuals. • The Company may be unable to maintain its VCT status, which could result in loss of certain tax reliefs. • The Company's investments may be difficult to realise. There may also be constraints imposed on the realisation of investments by reason of the need to maintain the VCT status of the Company.

D.3	Key information on the key risks specific to the securities	<p>The key risk factors relating to the Shares are:</p> <ul style="list-style-type: none"> • The market price of a Share may not fully reflect the underlying net asset value. • The value of Shares depends on the performance of the Company's underlying assets and that value and the income derived from those assets may go down as well as up and an Investor may not get back the amount invested. • Although the Shares are listed on the Official List and admitted to trading on the London Stock Exchange, shares in VCTs are inherently illiquid. Shareholders may, therefore, have difficulty in selling their Shares. • Investing in a VCT may not be suitable for all Investors. Tax reliefs may be lost by Investors or the Company taking or not taking certain steps. • The interests of the Ordinary Shareholders and the New "B" Shareholders may not always be aligned. Certain corporate actions (such as a winding-up and the holding of investments under the VCT Rules, for example) can only be effected on a company-wide basis. It may, therefore, occur that the Ordinary Shareholders and the New "B" Shareholders disagree in relation to a certain matter and the Board will have to try to find some accommodation for the competing interests. • Levels, bases of, and reliefs from taxation are subject to change, which could be retrospective.

Section E — Offer

Element	Disclosure requirement	Disclosure
E.1	Net proceeds and costs of the Issue	<p>Assuming a full subscription of £20 million of New “B” Shares (with the over-allotment facility fully utilised) and a Promoter Fee of 5.5% on all such subscriptions, the total net proceeds of the Offer is expected to be £18,900,000.</p> <p>On the same assumptions, the cost to the Company would be £1,100,000 (excluding VAT).</p> <p>The Manager will pay all costs and expenses of or incidental to the Offer and Admission in return for which it shall receive from the Company a Promoter Fee on the value of each application for New “B” Shares accepted by the Company.</p>
E.2a	Reason for the Offer and use of proceeds	<p>By making the Offer the Company intends to raise funds for the New “B” Share Pool and then, in accordance with the relevant criteria under the VCT Rules, use the proceeds of the Offer to acquire over a period not exceeding three years (and subsequently maintain) a portfolio of Qualifying Investments for the New “B” Share Pool in accordance with the published investment policy of the Company.</p>
E.3	Terms and conditions of the Offer	<p>The New “B” Shares are offered at the Offer Price, payable in full upon application. Up to £10 million of New “B” Shares are being made available under the Offer, with an over-allotment facility for up to a further £10 million of New “B” Shares.</p> <p>The Offer is conditional on the Minimum Subscription Threshold of £3,000,000 being met by 5.00 p.m. on 22 March 2019. If it is not met, the Offer will be withdrawn and subscription monies will be returned to Investors (within seven days) at their own risk without interest.</p>

Adviser Charges, Pricing of the Offer and Commission

Commission is not permitted to be paid to financial advisers who provide a personal recommendation to UK retail clients on investments in VCTs. Instead of commission being paid by the VCT, a fee will usually be agreed between a financial adviser and his investor for the advice ("Adviser Charge"). This fee can either be paid directly by the Investor to the financial advisers or, if it is an initial one-off fee, the payment of such fee may be facilitated by the Company. Ongoing fees will not be facilitated by the Company. If the payment of the Adviser Charge is to be facilitated by the Company, or if the Adviser Charge is being paid directly by an Investor, then the Manager will charge a Promoter Fee of 3% of the monies subscribed (the monies subscribed excluding any amount requested to be facilitated as an Adviser Charge by the Company). The Investor is required to specify the amount of the charge on the Application Form. The Investor will be issued fewer New "B" Shares (to the equivalent value of the Adviser Charge) through the Pricing Formula set out below.

Commission is permitted to be paid to financial intermediaries in certain limited situations, such as in respect of execution only clients (where no advice or personal recommendation has been provided). The level of the Promoter Fee reflects whether or not intermediary commission is payable.

Promoter Fee (direct applications with no commission payable to an intermediary)

The Manager will charge a Promoter Fee of 5.5% of the monies subscribed where the Application is received directly from an Applicant and it is not required to pay commission to an intermediary.

Promoter Fee (commission payable to an intermediary)

The Manager will charge a Promoter Fee of 5.5% of the monies subscribed, where it is required to pay commission to an intermediary. Those intermediaries who are permitted to receive commission will usually receive an initial commission of 2.5% of the monies subscribed by their clients under the Offer and no trail commission, or 2% of the monies subscribed by their clients under the Offer and provided that the intermediary continues to act for the Investor and the Investor continues to be the beneficial owner of the Shares, and subject to applicable laws and regulations, an annual trail commission of up to 0.5% of the NAV per New "B" Share. This annual trail commission will be payable until the earlier of (i) the fourth anniversary of the closing of the Offer and (ii) the IMA between the Company and the Manager being terminated. Risk Factors

Prospective Investors should consider carefully the following risk factors, as well as the other information in this Prospectus, before investing in New "B" Shares. Prospective Investors should read the whole of this Prospectus and not rely solely on the information in this section entitled "Risk Factors". The business and financial condition of the Company could be adversely affected if any of the following risks were to occur and as a result the trading price of the New "B" Shares could decline and Investors could lose part or all of their investment.

The Directors consider the following risks to be material for potential Investors, but the risks listed below do not necessarily comprise all those associated with an investment in the Company. Additional risks and uncertainties currently unknown to the Company (such as changes in legal, regulatory or tax requirements), or which the Company currently believes are immaterial, may also have a materially adverse effect on its financial condition or prospects or the trading price of New "B" Shares.

The Directors draw the attention of potential Investors to the following risk factors which may affect an investment in New "B" Shares, the Company's performance and/or the availability of tax reliefs.

- The New "B" Shares will usually trade at a discount to their underlying net asset value. The value of an investment in the Company depends on the performance of its underlying assets and that value and the income derived from the investment may go down as well as up and an Investor may not get back the amount invested.
- Although the New "B" Shares to be issued under the Offer will be listed on the Official List and admitted to trading on the London Stock Exchange, shares in VCTs are inherently illiquid and there may be a limited market in the New "B" Shares primarily because the initial tax relief is only available to those subscribing for newly issued New "B" Shares and Shareholders may, therefore, have difficulty in selling them.
- The Directors are committed to maintaining the Company's VCT status but there can be no guarantee that the Company will fulfil the criteria to maintain full VCT status. If the Company loses its approval as a VCT before Investors have held their New "B" Shares for five years, the 30% income tax relief obtained will have to be repaid by such investors. Following a loss of VCT status, an Investor will be taxed on dividends paid by the Company, and in addition, a liability to capital gains tax may arise on any subsequent disposal of New "B" Shares.
- Where full approval as a VCT is not maintained, any dividends previously paid to holders of New "B" Shares will be liable to be assessed to income tax in the year in which they were paid. Interest may also be due. The Company will also lose its exemption from corporation tax on capital gains. If at any time VCT status is lost, dealings in the New "B" Shares may be suspended until such time as the Company has published proposals to continue as a VCT or be wound up.

- The information in this document is based on existing legislation, including taxation legislation. The tax reliefs described are those currently available. Levels and bases of, and relief from taxation are subject to change. Such change could be retrospective. The value of tax reliefs depends on the personal circumstances of holders of shares, who should consult their own tax advisers before making any investment.
- An investment in the Company should be regarded as long-term in nature as a sale by Investors of their New "B" Shares within five years will require a repayment of the 30% income tax relief obtained and is, therefore, not suitable for all individuals. Potential Investors should consult their professional advisers prior to making any investment decision in relation to the Offer.
- The VCT Rules restrict the ability of VCTs to return amounts subscribed as capital to shareholders within three years of the end of the accounting period in which the funds were raised. It will, therefore, not be possible until the end of that time period to utilise amounts of share premium resulting from the New "B" Share issue (although Ordinary Shares reserves can be used in relation to the New "B" Shares). Since the share premium resulting from the New "B" Share issue will not be available until the end of the relevant three year period, this may in the future impact on the Company's ability to pay dividends and/or buy back New "B" Shares, or the amount thereof, since during the period where share premium in respect of New "B" Shares issued cannot be used, only existing special reserves and distributable reserves created through investment activities will be utilised for these purposes (and such reserves resulting from investment activities may possibly take time to accumulate to a level where they can be used for such purposes).
- Income tax relief is not available in respect of a subscription for shares in a VCT where the investor has sold shares in that VCT and the sale was conditional upon the subscription, or the subscription was conditional upon the sale, or the subscription was made within six months of the sale (before or after). This will also have effect in relation to a subscription for shares in a VCT which is deemed to be a successor or predecessor of the VCT because there has been a merger of VCTs, or a restructuring of a group of companies of which the VCT is a member. The measure will not affect subscriptions for shares where the monies being subscribed represent dividends which the investor has elected to reinvest.
- On 24 June 2016 it was announced that the UK electorate had voted to leave the European Union ("EU"). At the date of this document there is significant uncertainty over the manner and form of the UK's withdrawal from the EU. As the Company is impacted by European-led legislation while the UK remains a part of the EU, the future regulatory environment is therefore subject to significant uncertainty. However, at least in the short term and until the UK's withdrawal from the EU has been agreed, the Company will continue to be subject to European-led legislation, as enacted into UK legislation.

Risks associated with the likely underlying investments

- There can be no guarantee that the Company will meet all its objectives or that suitable investment opportunities will be identified.
- Smaller unquoted companies, usually with limited trading records, requiring venture capital, frequently experience significant change. Investments in such companies carry substantially higher risks than would an investment in larger or longer-established businesses.

- Investment in unquoted companies, by its nature, involves a higher degree of risk than investment in the main market. In particular, small companies often have limited product lines, markets or financial resources and may be dependent for their management on a smaller number of key individuals. In addition, the market for stock in smaller companies is often less liquid than that for stock in larger companies, bringing with it potential difficulties in acquiring, valuing and disposing of such stock. Proper information for determining their value or the risks to which they are exposed may also not be available.
- Valuations of unquoted companies are determined by the Directors within IPEVC Valuation Guidelines. However, in many cases valuations may take into account stock market price earnings ratios for the relevant industry sectors, discounted for non-marketability, and, therefore, the valuation of the portfolio and opportunities for realisation may depend on stock market conditions.
- The Company's investments may be difficult to realise. There may also be constraints imposed on the realisation of investments by reason of the need to maintain the VCT status of the Company.
- The Company may make investments into companies with similar trading profiles and with exposures in the same industry and/or to the same customer base. The level of returns to the Company may, therefore, be adversely affected by any downturn in those sectors or the sources within those sectors from which income is derived.
- Although the Company expects to receive certain conventional venture capital rights in connection with its unquoted investments, as a minority investor it will not control the companies in which it invests (or their boards of directors) and may not always be in a position to fully protect its interests.
- Businesses in which the Company invests may incur unplanned costs and delays as a result of statutory and regulatory requirements in areas such as labour and health and safety, or where construction operations do not proceed as planned, which may prevent them from fulfilling their business plans and reduce the level of returns to the Company.
- The level of returns from investments may be reduced if there are delays in the investment programme, such that part of the net proceeds of the Offer are held in cash or cash-based similar liquid investments for longer than anticipated, or if the investments cannot be realised at the expected time and values.
- The Finance (No. 2) Act 2015 introduced a maximum age limit for companies receiving VCT investments (generally seven years from first commercial sale or ten years for Knowledge Intensive Companies), and a maximum amount of Risk Finance State Aid which a company can receive over its lifetime (£12 million, or £20 million for Knowledge Intensive Companies). There are further restrictions on the use of VCT funds received by investee companies. The Finance Act 2018 introduced a new "risk-to-capital" condition for Qualifying Investments, designed to focus investments towards earlier stage, growing businesses, and away from investments which could be regarded as lower risk. The Company may not make investments which breach the "risk-to-capital" condition, and the potential penalty for contravention of the VCT Rules can include loss of VCT status with a resultant clawback of VCT tax reliefs from investors.

Risks associated with the Manager and Conflicts of Interest

- The past performance of the Manager is no indication of future performance.
- The Manager will provide discretionary investment management services to the Company in respect of its portfolio of investments in the New “B” Share Pool. If the Manager does not perform its obligations in accordance with the agreement regulating the provision of these services, the performance of the Company and/or its ability to achieve or maintain VCT status, may be adversely affected.
- The Manager, or any of its officers, employees, agents and affiliates and the Directors and any person or company with whom they are affiliated or by whom they are employed (each an ‘Interested Party’) may be involved in other financial, investment or other professional activities which may cause conflicts of interest with the Company. An Interested Party will not be liable to account for any profit made in connection with these activities. For example, and without limitation, an Interested Party may:
 - (a) deal or invest in any investment, whether or not for its own account and notwithstanding that similar investments may be held by the Company;
 - (b) enter into or be interested in any financial or other transaction with any entity any of whose securities are held by or for the account of the Company;
 - (c) allocate investment opportunities among the funds and accounts it manages in accordance with its internal policies; or
 - (d) arrange for the Company to acquire investments from or dispose of investments to any Interested Party or any investment fund or account advised or managed by any such person.

In the event of a conflict of interest arising in relation to the above circumstances, or in any other circumstances, and so far as it is within their powers to do so, the Directors will endeavour to ensure that it is resolved fairly and approved by the Independent Board in accordance with the Conflicts Policy as set out in the Manager’s compliance manual. Where potential and actual conflicts of interest are identified, the Manager’s compliance team will be notified and they will prepare a note, which will then be considered by and discussed with the Independent Board, with the aim of agreeing steps to resolve or otherwise manage such conflicts.

To the extent that the Company intends to invest in a company in which another fund managed by the Manager has invested or intends to invest, the investment must be approved by the Independent Board.

Risks associated with Exposure to Non-qualifying Investments

- The performance of the Company's Non-qualifying Investments is affected by the selection of funds and managers by the Manager and by investment decisions of such portfolio managers. There is no guarantee (whether from the Manager or any other party) that the Company will meet its investment objective.

Risks associated with there being two share classes

- Although the Articles contain provisions allocating the assets and liabilities of the Company to either the Ordinary Share class or the New "B" Share class, such allocations may not in all circumstances (for example insolvency situations) be effective in ring-fencing the assets and liabilities of one share class from the other, particularly in relation to a third party creditor or claimant against the Company.
- The interests of the Ordinary Shareholders and the New "B" Shareholders may not always be aligned, for example in relation to statutory holding periods for certain tax reliefs that commence from the issue date of the relevant Share. Certain relevant tests (for example, in relation to the ability to pay dividends and/or finance the buy-back of Shares and in relation to compliance with the VCT Rules) are, however, calculated on a Company-wide basis. In addition, certain corporate actions (such as a winding-up for example) can only be done on a Company-wide basis. It may, therefore, occur that the interests of Ordinary Shareholders and the New "B" Shareholders are not aligned in relation to a certain matter.

Chairman's Letter

Dear Investor

The Company was launched as a VCT in 2001 and since then has raised a total of £7.8 million through its initial offer for subscription and subsequent top-up offers. The Company has been, and continues to be, fully invested for the purposes of the VCT Rules, with Qualifying Investments having been made in the Medtech sector in accordance with the Company's original published investment policy.

Your Board have been considering the future direction of the Company, given the absence of significant realisations and the continuing running costs. We continue to believe that there remains significant potential within the portfolio but, having taken measures to reduce the costs associated with maintaining listed company status without losing valuable shareholder benefits, we remain keen to seek ways to further minimise the costs during the remainder of the holding period for the existing investments.

We believe that the most attractive solution for our Shareholders is a proposal by Seneca Partners Limited ("Seneca"), an experienced fund management group based in the North West of England whose activities are more fully described below. For some time Seneca has been looking into the possibility of establishing a VCT as a new offering for its existing client base. Following discussions with your Board Seneca has proposed that a new share class (the New "B" Shares) is created in the Company, with the new pool of assets to be managed by Seneca with a more generalist investment policy than the one that applied to the existing Ordinary Share class.

Both the Board and Seneca see considerable advantages in this proposal. One advantage in establishing the New "B" Shares is that the Company is already an established VCT. Although it is proposed that the New "B" Share Pool will assume the Annual Running Costs (see below) for an initial period of three years (largely being costs that would have been assumed by new investors in any case if Seneca had launched a new VCT on its own), creating a new share class in an existing VCT is expected to benefit the New "B" Shareholders by potentially allowing the Company to pay dividends on the New "B" Shares far earlier than would have been the case if Seneca had launched a new VCT on its own.

The New "B" Share class will form a separate pool of capital (distinct from the existing pool of capital represented by the Ordinary Shares) that will be managed by Seneca on behalf of the Company. The funds in the New "B" Share Pool will be invested in accordance with a more generalist investment policy which reflects the expertise and experience of Seneca. Of particular relevance is Seneca's EIS investment expertise which comes as a result of managing more than £50 million of growth capital, investing in 39 SME companies through 72 funding rounds since the first EIS investment in 2012 (to 31 March 2018).

This investment expertise is of particular relevance in view of recent changes in VCT legislation. The Finance (No. 2) Act 2015 introduced a number of significant changes to the VCT Rules. These changes imposed restrictions on the types of transactions and companies into which VCTs are able to invest. They also restricted the ability of VCTs to finance management buy-outs and acquisitions, and also severely limited the ability of VCTs to invest in anything other than businesses which are less than seven years old.

As a result, many VCT managers are now targeting growth capital investments rather than management buy-outs or acquisition based investments. Whilst this is a shift in investment strategy for many VCT managers, through the management of the Seneca EIS Growth Capital Fund and the Seneca EIS Portfolio Service, where funds under management exceed £50 million, Seneca has extensive experience of managing growth capital investments of the nature now being targeted by other VCT managers under their revised investment strategies.

Seneca believes that the demand for growth capital from SMEs in the regions of the UK, which it serves from its headquarters in the North West of England, remains strong. As a result Seneca believes there is the opportunity to provide investors with access to these investment opportunities while benefitting from the tax benefits and diversification provided by doing so through a VCT.

Although Seneca, as investment manager, will have responsibility for the management of all of the assets of the Company, the Board will have the sole right to take investment decisions in relation to those investments in the existing Ordinary Share Pool.

The Company is now seeking to raise up to £10 million of capital through an offer for subscription for New "B" Shares with an over-allotment facility for a further £10 million (the "Offer").

The Company's Board believes that the Offer is an attractive investment opportunity for both Existing Shareholders and new investors.

The Offer

The Company is seeking to raise £10 million under the Offer, with a minimum level of subscription of £3 million and an over-allotment facility of a further £10 million. The Company intends to distribute a large proportion of the net profits it receives from realisations of investments made by the New "B" Share class by way of regular and special tax-free dividends. Therefore, the Offer is intended for those investors who are primarily seeking tax-free income with the potential of capital growth from a portfolio of investments in UK SMEs.

Investors may be eligible to benefit from the Early Investment Incentive discount (as detailed on page 24). In addition, Existing Shareholders and Existing Seneca Investors will also receive an enhanced rate of discount in relation to their applications (as further detailed on page 24).

VCT Tax Benefits

Qualifying Investors are entitled to claim a number of tax incentives on investments. The principal tax benefits for Qualifying Investors are set out below:

Income tax relief – investors can claim Income Tax relief when buying newly issued VCT shares, currently at the rate of 30% on investments of up to a total of £200,000 per tax year. This relief is provided as a tax credit to set against an investors' total income tax liability.

Investors must hold shares in a VCT for at least five years to keep the income tax relief – if sold before then, this benefit is lost.

Capital Gains Tax exemption – there is no capital gains tax on profits from selling VCT shares, no matter how short the holding period provided the VCT maintains its VCT status.

Tax-free Dividends – If a VCT pays dividends, there is no tax to pay and investors will not need to declare them on their tax return.

Seneca Partners Limited*

Seneca is an award-winning specialist SME investment and advisory business. Formed in 2010, and headquartered in the North West of England, the management team have extensive experience across a range of sectors, including private equity, corporate finance, wealth management, accountancy and stockbroking. Seneca won “Alternative Finance Provider” in both 2016 and 2017 at the North West Business Insider Awards as well as ‘Sub £10 million Deal of the Year’ in 2016 in respect of their EIS investment in Foodpack Ltd, a North West based food packaging business.

As at 31 March 2018, Seneca managed more than £100 million of equity, including more than £50 million of growth capital, the majority of which has come from investors who access Seneca’s investment opportunities through their financial adviser or wealth manager. To date, more than 150 financial advisers or wealth managers have arranged investments for their clients through Seneca.

Seneca’s fund management activities are complemented by its mid-market corporate advisory practice which specialises in advising corporates, management teams and investors on a wide range of corporate finance related transactions ranging from fundraisings for early stage businesses, through to lower mid-market sales and buy-outs with typical deal sizes ranging from £5 million to £50 million.

Seneca is also the founding member of the Seneca branded network of companies which includes Seneca Investment Managers, a Liverpool based fund manager with more than £500 million under management (as at 31 March 2018), Seneca Finance Limited, a property bridging finance provider with a loan book of more than £20 million (as at 31 March 2018) and Seneca Property Limited which originated more than £20 million of property acquisitions in the 12 months to 31 March 2018. This wider Seneca branded network of companies operates from 5 offices across the North of England and employs more than 60 people. As a result of this extended network Seneca enjoys strong deal flow and anticipates that the New “B” Share class will benefit from access to its existing pipeline of growth capital investment opportunities.

Investment Strategy*

Through the Seneca Growth Capital EIS Fund, which was launched in 2012 and is fully invested, and the Seneca EIS Portfolio Service which was launched in 2013, Seneca has pursued a generalist investment strategy focused on providing growth capital to well managed businesses with strong leadership teams that can demonstrate established and proven concepts in addition to growth potential. Further, Seneca’s EIS investments to date have comprised private and AIM quoted companies in broadly equal number.

Seneca believes that this experience is directly relevant to the delivery of the investment strategy of the New “B” Share class, and by pursuing this investment strategy through a VCT structure hopes to appeal to investors who are primarily seeking tax-free income with the potential of capital growth from a portfolio of investments in UK SMEs.

* see paragraph 6.15 of Part 4.

Seneca has identified a number of potential benefits relevant to the New "B" Share class as a result of the management of its existing portfolio of EIS investments and the New "B" Share class being issued by an existing VCT. These include:

- Seneca is an experienced growth capital investor.
- The New "B" Share class will have access to the existing flow of private and AIM quoted investment opportunities which Seneca see as a result of their position as an active growth capital investor.
- The New "B" Share class may co-invest with the Seneca EIS Portfolio Service thereby participating in investments which it may not otherwise be able to do so.
- Creating a new share class in an existing VCT is expected to benefit the New "B" Shareholders by potentially allowing the Company to utilise existing distributable reserves to pay dividends on the New "B" Shares far earlier than would have been the case if Seneca had launched a new VCT on its own.

Investment Performance*

The combined performance of the Seneca Growth Capital EIS Fund and the Seneca EIS Portfolio Service is illustrated in the table on page 36 which indicates an average increase in NAV of 8.9% per annum during the five years ended 31 March 2018, based on the assumptions as set out on page 36. Please note, however, that past performance of Seneca in managing these investments is no indication of future performance of the New "B" Share class.

New Board Appointment

The Board and Seneca have agreed that Seneca shall have the right to appoint a director to the Board, such an appointment to be made shortly after the first allotment of New "B" Shares. Any such director will not be considered independent for the purposes of the Listing Rules.

Seneca's Commitment to the Offer

The directors and senior management team of Seneca have committed to invest, in aggregate, £200,000 in the New "B" Shares under the terms of the Offer to reflect their confidence in the long term prospects of the New "B" Share Pool.

Furthermore, as Seneca will have responsibility for overseeing the administration of the Company as a whole, it has agreed with the Company to cap the Annual Running Costs allocated to the New "B" Share Pool, with the costs so allocated not to exceed 3% of the net asset value of the New "B" Share Pool. Seneca will indemnify the Company to give effect to this cap.

* see paragraph 6.15 of Part 4.

Next Steps

Investors wishing to subscribe under the Offer should read the Prospectus in full, including the Terms and Conditions of Application on pages 94 to 100 of this document.

An Application Form accompanies this document, and can be found on the Company's website: www.hygeavct.com and at <https://investing.senecapartners.co.uk/products-and-funds/vct-offer>.

Part 1 - Overview

Investment Strategy for the New “B” Share Pool*

Through the Seneca Growth Capital EIS Fund, which was launched in 2012 and is fully invested, and the Seneca EIS Portfolio Service which was launched in 2013, Seneca has pursued a generalist investment strategy focused on providing growth capital to well managed businesses with strong leadership teams that can demonstrate established and proven concepts in addition to growth potential. Further, Seneca’s EIS investments to date have comprised private and AIM quoted companies in broadly equal number.

Seneca believes that this experience is directly relevant to the delivery of the investment strategy of the New “B” Share class, and by doing so within a VCT structure hopes to appeal to investors who are primarily seeking tax fee income with the potential for capital growth from a portfolio of investments in UK SMEs.

Seneca has identified a number of potential benefits relevant to the New “B” Share class as a result of its management of the Seneca Growth Capital EIS Fund and the Seneca EIS Portfolio Service. These include:

- Seneca is an experienced growth capital investor, having invested more than £50 million of growth capital on behalf of its clients through the Seneca Growth Capital EIS Fund and the Seneca EIS Portfolio Service since 2012.
- The New “B” Share class will have access to the existing flow of private and AIM quoted investment opportunities which Seneca see as a result of their position as an active growth capital investor. Seneca believes that the mix of private and AIM quoted companies increases investment diversification in addition to providing a certain level of liquidity in the investments held in the New “B” Share Pool through capital market exposure.
- The New “B” Share class may co-invest with the Seneca EIS Portfolio Service thereby participating in investments which may not otherwise be available to the New “B” Share Pool.

It is anticipated that, at any time, up to 30% of investments (20% from 1 January 2020) will be held in Non-qualifying Investments, recognising that no single investment will represent more than 15% of the Company by VCT value (at the point of investment or addition to an existing investment).

* see paragraph 6.15 of Part 4.

Tax Benefits

VCTs offer significant tax advantages over most investment products. In summary, the main tax reliefs for Qualifying Investors are:

- **Income tax relief** – investors can claim income tax relief when buying newly issued VCT shares, currently at the rate of 30% on investments of up to £200,000 per tax year. This relief is provided as a tax credit to set against an investors' total income tax liability. Investors must hold shares in a VCT for at least five years to keep the income tax relief – if sold before then, this benefit is lost.
- **Capital Gains Tax exemption** – there is no capital gains tax on profits from selling VCT shares, no matter how short the holding period provided the VCT maintains its VCT status.
- **Tax-free Dividends** – if a VCT pays dividends, there is no tax to pay and investors will not need to declare them on their tax return.

It is intended that the Company will allot New "B" Shares as soon as the Minimum Subscription Threshold has been met. This is expected to occur during summer 2018. The Offer will remain open in line with the Expected Timetable for the Offer (as set out on page 23) for the remainder of the 2018/19 tax year.

Income tax relief is only available for set-off against any income tax liability due.

The above is only a very brief summary of the UK tax position of Qualifying Investors in VCTs and is based on the Company's understanding of current law and practice. The tax treatment of Investors in VCTs will depend on their individual circumstances. Potential Investors are recommended to consult their own appropriate professional adviser as to the taxation consequences of their investing in a VCT.

Deal Flow and Investment Selection*

As a result of their EIS growth capital activities to date, which sees Seneca now managing more than £50 million of EIS growth capital, Seneca has developed a strong network of introducers, professional contacts and entrepreneurs. From this network Seneca enjoys a strong flow of growth capital investment opportunities of the type which are expected to be suitable potential investments for the New "B" Share Pool.

Seneca typically reviews hundreds of investment opportunities a year and meets many of the businesses involved but transacts with only a fraction of these. It is through the application of strict investment criteria and extensive screening, combined with detailed due diligence processes, that Seneca focuses only on those businesses which it believes offer the best investment potential.

Seneca intends to apply a similar two stage investment appraisal approach to that which it has applied to its EIS investing activities to date to the selection and management of investments for the New "B" Share Pool.

* see paragraph 6.15 of Part 4.

An overview of this existing investment appraisal process is included below:

STAGE ONE – INITIAL REVIEW

Stage One consists of producing a summary of the key features of the potential investment opportunity, typically including a review of senior management, market analysis, forecast trading, potential investment pricing, exit strategy, potential returns, EIS tax eligibility and key due diligence issues. The Seneca investment sponsor will then present these initial high level findings to Seneca's Investment Committee at which point the opportunity is either declined or it is agreed to move to Stage Two.

STAGE TWO – DETAILED ANALYSIS AND APPROVAL

Stage Two consists of a more detailed investigation of the investment opportunity typically including site visits, negotiation of investment terms and preparation of a full investment paper, supported by the findings of the due diligence undertaken. Responses to any queries or feedback points raised by the Investment Committee as part of the Stage One initial review are also provided at this point in addition to details relating to the advice taken and assurances obtained to ensure EIS tax eligibility of the proposed investment. The Investment Committee considers these findings and, if the investment is approved, it proceeds to legal completion.

For the proposed New "B" Share Pool, a similar review process will be undertaken. However, in addition to this, the approval of an investment by the Company's Board as being compliant with VCT investment rules will also need to be obtained prior to completion of the investment.

ONGOING INVESTMENT MANAGEMENT AND EXITS

Seneca monitors very closely the progress of all investee companies in its EIS portfolio and the Investment Committee is updated on a regular basis. Investment into a private company is often accompanied by a board appointment or the attendance of a Seneca appointed observer at a company's board meetings, this being in addition to information rights to ensure Seneca enjoy direct access to senior management on a regular basis. For AIM quoted companies all publicly released information is carefully monitored and the impact on the share price is closely analysed such that Seneca remains well placed to take any actions required to maximise investment returns.

When the opportunity to exit an investment arises it is presented to the Investment Committee in a similar two stage process as summarised above and Investment Committee approval is obtained before any investment is exited.

Exit

The Company aims to exit each of its Qualifying Investments in the New "B" Share Pool after a holding period of approximately 3-5 years (however Seneca will consider exiting the investments earlier if the opportunity arises and they consider it to be in line with maximising investor returns). The Manager will consider the exit options as part of its evaluation process on the opportunity before making a recommendation to invest. The Manager has extensive experience of selling companies both to trade buyers and private equity investors from which the Company will benefit.

As interests in the investee companies are sold, the Company intends to distribute a large proportion of the net profit it receives by way of special tax-free dividends. This is intended to provide Investors with an attractive income stream but also capital growth over the longer term, subject to the requirements and best interests of the Company.

Part 1 - Seneca - Investment Activity and Performance*

Track Record – Seneca Growth Capital EIS Fund and the Seneca EIS Portfolio Service

Seneca already has a track record in investing growth capital through its management of the Seneca Growth Capital EIS Fund and the Seneca EIS Portfolio Service.

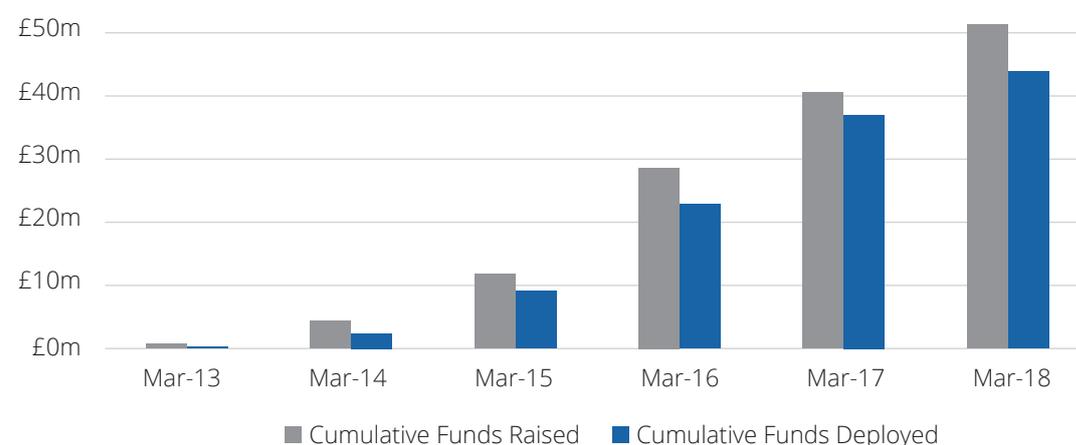

Seneca launched the Seneca Growth Capital EIS Fund in 2012 raising just over £1 million which was subsequently invested in 4 companies and followed this by launching the Seneca EIS Portfolio Service in 2013 through which Seneca has raised £48 million (up to 31 March 2018).

Investment performance means that Seneca now manages more than £50 million of EIS growth capital and since 2012 has provided growth capital to 39 SMEs through 72 funding rounds (up to 31 March 2018) investing both independently and alongside other VCT managers including Octopus Investments, NVM Private Equity LLP, Mobeus Equity Partners and Livingbridge.

As demonstrated in the graph below, since its launch in 2013 Seneca has successfully raised and deployed substantial funds into the Seneca EIS Portfolio Service for growth capital investments on behalf of its clients.

Seneca EIS Portfolio Service

Cumulative Fundraising and Deployment Profile

(Source: Seneca)

Seneca has a particularly strong presence in the North West of England where it is headquartered and as a result of this regional presence sees a wide variety of growth capital investment opportunities and pursues a generalist investment policy. This is demonstrated by the diverse sector split of its existing EIS investments, with no sector representing more than 25% of the total value of Seneca's existing EIS investments.

* see paragraph 6.15 of Part 4.

Another key feature of the EIS investments made by Seneca to date is that approximately 50% of the portfolio companies are AIM quoted. Seneca intends to replicate this feature for the New "B" Share class and believes that including AIM quoted companies in the New "B" Share Pool investment portfolio brings the following potential benefits:

- increased investment diversification;
- provision of a certain level of liquidity through capital market exposure;
- access to some of the UKs most innovative growing businesses; and
- will be attractive to a wider investor base willing to provide capital to support ongoing expansion.

Performance*

During the five years to 31 March 2018, the Seneca Growth Capital EIS Fund and the Seneca EIS Portfolio Service have together delivered a combined average (unaudited) NAV⁺ growth rate of approximately 8.9% per annum:

Year Ended 31 March	FY14	FY15	FY16	FY17	FY18	5 Year Average
Annual growth rate	3.3%	28.5%	0.1%	10.2%	2.5%	8.9%

+ The NAV calculations above include quoted companies at year end closing share prices, cash received from realisations, private companies valued in line with the share price of the investee company's most recent fundraise (unless otherwise impaired) and represent gross performance before the impact of any of Seneca's fees. Any annual management charges and performance fees in respect of investments made into the Seneca EIS Portfolio Service are contingent and only become due upon the realisation of investments and then only once an investor has had their original investment returned to them. Due to the lower number of exits relative to the number of investments made by the Seneca EIS Portfolio Service, limited fees have fallen due up to 31 March 2018. For illustrative purposes only, if all investments in the Seneca Growth Capital EIS Fund and the Seneca EIS Portfolio Service were realised at their prevailing values as at 31 March 2018 with the fees then due being apportioned over the investment period with reference to the funds under management at each March year end, the impact would be to reduce the combined average (unaudited) NAV growth rate for the five year period to 31 March 2018 to approximately 7.3% per annum.

During the five year period above there were 9 full or partial realisations totalling £6.2 million with money multiples ranging between 1.08x to 9.7x for investors. There have also been 3 write offs with a total of £0.75 million written off. (Source: Seneca (unaudited combined NAV calculations relating to the Seneca Growth Capital EIS Fund and the Seneca EIS Portfolio Service)).

The combined performance of the Seneca EIS Portfolio Service and the Seneca Growth Capital EIS Fund to date is indicative of the team's ability to source deals, transact effectively, add value and exit successfully, attributes which are highly relevant to the successful investments of the New "B" Share class.

Please note that the past performance of Seneca in managing the Seneca Growth Capital EIS Fund or the Seneca EIS Portfolio Service is no indication of future performance of the New "B" Share class.

Seneca Nominated Director/Observer

The Board and Seneca have agreed that Seneca shall have the right to appoint a director to the Board, such an appointment to be made shortly after the first allotment of New "B" Shares. Any such director will not be considered independent for the purposes of the Listing Rules. In addition to this, Seneca have the right to appoint an observer to the Board.

Part 1 - Investment Policy

The current investment policy is set out below:

Investment Policy

The Company's objective is to provide shareholders with an attractive income and capital return by investing its funds in a portfolio of both unquoted and AIM/NEX quoted UK companies which meet the relevant criteria under the VCT Rules.

The Company will target well managed businesses with strong leadership, that can demonstrate established and proven concepts, and are seeking an injection of growth capital to support their continued development.

At least the minimum required percentage of the Company's assets will be invested in Qualifying Investments as required by the VCT Rules, with the remainder held in cash and money market securities.

Qualifying Investments

Compliance with required rules and regulations is to be considered with all investment decisions made. The Company is further monitored on a continual basis to ensure compliance.

Non-qualifying Investments

An active approach will be taken to manage any cash held, both prior to its investment in Qualifying Companies and to any remaining cash after all investment qualification targets in the VCT Rules have been satisfied. All cash will be invested in accordance with VCT Rules for Non-qualifying Investments. Such Non-qualifying Investments may include liquid AIFs, UCITS or other money market funds including those managed by Seneca Investment Managers.

Risk Management

The Directors control the overall risk of the portfolio by ensuring that the Company has exposure to a diversified range of unquoted and AIM/NEX quoted companies. In order to limit concentration risk in the portfolio that is derived from any particular investment, at the point of investment or addition to an existing investment no more than 15% of the Company by VCT value will be in any one investment. In addition, investments may also be made by way of loan stock and/or redeemable preference shares as well as ordinary shares to generate income, whilst ensuring compliance with whatever VCT Rules apply at the time.

Borrowing

Whilst the Board does not intend that the Company will borrow funds (other than to manage short term cash requirements), the Company is entitled to do so subject to the aggregate principal amount at the time of borrowing not exceeding 25% of the value of the adjusted capital and reserves of the Company (being, in summary, the aggregate of the issued share capital, plus any amount standing to the credit of the Company's reserves, deducting any distributions declared and intangible assets and adjusting for any variations to the above since the date of the relevant balance sheet).

Changes to the Investment Policy

The Company will not make any material changes to its investment policy without Shareholder approval.

Part 1 - Other Information

Conflicts of Interest

The Manager, or any of its officers, employees, agents and affiliates and any person or company with whom they are affiliated or by whom they are employed (each an "Interested Party") may be involved in other financial, investment or other professional activities which may cause conflicts of interest with the Company. An Interested Party will not be liable to account for any profit made in connection with these activities. For example, and without limitation, an Interested Party may:

- deal or invest in any investment, whether or not for its own account and notwithstanding that similar investments may be held by the Company;
- enter into or be interested in any financial or other transaction with any entity any of whose securities are held by or for the account of the Company;
- allocate investment opportunities among the funds and accounts it manages in accordance with its internal policies; and
- arrange for the Company to acquire investments from or dispose of investments to any Interested Party or any investment fund or account advised or managed by any such person.

In the event of a conflict of interest arising in relation to the above circumstances, or in any other circumstances, and so far as it is within their powers to do so, the Directors will endeavour to ensure that it is resolved fairly and approved by the Independent Board in accordance with the Conflicts Policy as set out in the Manager's compliance manual. To the extent that the Company intends to invest in a company in which another fund managed by the Manager has invested or intends to invest, the investment must be approved by the Independent Board.

When conflicts occur between the Manager and the Company because of other activities and relationships of the Manager, the Manager will ensure that the Company receives fair treatment. Such conflicts will be disclosed to the Company.

Co-Investment Policy

If situations arise where the Company proposes to invest in the same companies as other funds managed or clients advised by Seneca, but at a different time or on different terms, any such proposed investment will require approval from the Independent Board and compliance with the Listing Rules.

Members of the Seneca management team will also be able to invest in the same investments as the Company (as long as such investments are made by those individuals at the same time and on the same terms as the Company). Such investments will need to comply with any restrictions contained in the Listing Rules.

The Board will be responsible for determining the Company's investment policy and will have overall responsibility for the Company's activities. In accordance with the Listing Rules, a material change in the investment policy of the Company will only be effected with the prior approval of Shareholders.

Post-Investment Management

The Manager will monitor each investment in the New "B" Share Pool regularly and will expect to meet with the management of investee companies on a regular basis.

As the values of underlying investments increase, the Manager will monitor opportunities for the Company to realise gains, and make tax-free distributions to Shareholders. Under the Articles, the New "B" Shareholders have no economic rights to the assets in the Ordinary Share Pool and the Ordinary Shareholders have no economic rights over the New "B" Share Pool. Therefore, returns to the New "B" Shareholders will depend upon both the performance of the New "B" Share Pool and also the overall financial position of the Company being sufficient to comply with any conditions to any distributions applied on a Company-wide basis.

Valuation Policy

Investments in AIM and NEX-quoted shares will be valued at prevailing bid prices in the market, unless it is thought necessary to make any adjustment for illiquidity. All other investments will be valued by the Directors (in the case of the Ordinary Share Pool) or the Manager (in the case of the New "B" Share Pool) in accordance with the accounting policies of the Company (which follow the IPEVC Valuation Guidelines). IPEVC Valuation Guidelines apply to investment companies investing in unquoted investments and reporting under Financial Reporting Standards. The underlying principle of Financial Reporting Standards is that investments should be reported at fair value. Fair value is the amount for which an asset could be exchanged between knowledgeable, willing parties in an arm's-length transaction.

The Manager will be responsible for the calculation of the respective NAVs of the Ordinary Shares and the New "B" Shares in accordance with the policies set out above (with the Board being responsible for the valuation of the unquoted investments in the Ordinary Share Pool and the Manager being responsible for the valuation of the investments in the New "B" Share Pool). The Company will announce its net asset value per Share quarterly through its annual reports, interim accounts and further Regulatory Information Service announcements.

The calculation of the NAV per Share will only be suspended in circumstances where the underlying data necessary to value the investments of the Company cannot readily, or without undue expenditure, be obtained. Details of any suspension in making such calculations will be announced through a Regulatory Information Service.

Part 1 - Investment Review

The investment portfolio of the Ordinary Share Pool of the Company as at the date of this document is as follows (the valuations being the audited valuations as at 31 December 2017 with the partial sale of the Scancell shares noted below* disregarded for these purposes). With the exception of the sale of those shares, no investments or disposals have been made by the Company since 31 December 2017.

* on 14 March 2018 the Company sold 100,000 shares in Scancell plc (of the 13,249,730 shares it held above) for £17,942 (net of fees).

Whilst this review summarises those investments held by the Company, it should be noted that these investments are ring-fenced for the economic benefit of the Ordinary Shareholders and is not indicative of the types of investment to be made by the New "B" Share Pool. Although the Manager will invest in new opportunities which it has identified in accordance with the investment policy of the Company, it may invest funds from the New "B" Share Pool in follow-on investments in businesses in which the Ordinary Share Pool has invested.

Part 1 - The Manager, Management Arrangements and Costs

The Manager

Seneca Partners Limited, which is authorised and regulated by the Financial Conduct Authority to conduct investment business, will be appointed the manager of the Company under the terms of an investment management agreement entered into on 9 May 2018 (the "IMA"). Pursuant to the IMA, the Manager will be the Alternative Investment Fund Manager of the Company and will provide discretionary investment management services to the Company in respect of the investments of the Company. Further to a side letter to the IMA, the Manager has agreed that the management of investments in the Ordinary Share Pool shall be delegated by the Manager back to the Independent Board for the duration of the IMA, or (if shorter) the period of the existence of the Ordinary Share Pool. The Manager will also provide administration services to the Company. In relation to the management and administration services the Manager will be paid an annual management fee of 2% (plus VAT if applicable) of the net asset value of the New "B" Share Pool. The annual management fee will be payable quarterly in arrears, with 75% of the fee being charged to the Company's capital reserves (subject to the Company, after taking advice from the Auditors, determining a different proportion).

The Company will be responsible for its normal third party costs including (without limitation) listing fees, accounting, audit and taxation services, legal fees, company secretarial fees, sponsor fees, registrars' fees, receiving agent fees (other than in relation to the Offer), Directors' fees and other incidental costs.

In relation to the Annual Running Costs of the Company, it has been agreed that for the Initial Period all of those costs will be allocated to the New "B" Share Pool only, and after the end of that period, such costs will be allocated to the Ordinary Share Pool and the New "B" Share Pool pro-rata to their respective net asset values. The Manager has also agreed to cap the Annual Running Costs allocated to the Ordinary Shares at 3% of the net asset value of the Ordinary Share Pool, and costs allocated to the New "B" Shares at 3% of the net asset value of the New "B" Shares Pool.

The Manager's appointment under the IMA will take effect on the date on which the first New "B" Shares are issued and will continue until terminated by either party giving to the other not less than 12 months' previous written notice at any time after the fifth anniversary of the date of the IMA, subject to earlier termination in certain circumstances.

Performance Incentive Fees - New "B" Share Pool

As is customary in the venture capital industry and in order to ensure that the interests of the Manager and the New "B" Shareholders are aligned, the Manager will receive a Performance Incentive Fee on the investments in the New "B" Share Pool if those investments have performed well.

The Performance Incentive Fee will be an amount equal to 20% of the Shareholder Proceeds arising in respect of any Performance Period, provided that the payment of such a fee shall also be conditional upon (i) a return being generated on the New "B" Share Pool for New "B" Shareholders in respect of that period of more than 5% per annum (pro-rated if that period is less than a year) and (ii) that such a return calculated for the period from the date of the IMA to the end of the relevant Performance Period exceeds 5% per annum.

Performance incentive fees in relation to the Ordinary Shares are also potentially payable to the past and current Directors who are members of the CAC (see paragraph 5.4 in Part 4 of this document).

The performance incentive fees will be calculated separately on the Ordinary Shares and the New "B" Shares.

Dividend Policy - New "B" Shares

Generally, under the VCT Rules, a VCT must distribute by way of dividend such amount as to ensure that it retains not more than 15% of its income from shares and securities.

The Company intends to distribute a large proportion of the net profits it receives from realisations by way of special tax-free dividends. This is intended to provide Investors with an attractive income stream but also capital growth over the longer term, subject to the requirements and best interests of the Company. All distributions are expected to be free of UK income tax to individuals aged 18 or over who acquired their shares within the annual £200,000 limit.

It should be noted that the VCT Rules apply on a company-wide basis. However, under the Articles, the Company will allocate the economic benefit from the two separate asset pools to the Ordinary Shares or to the New "B" Shares respectively. Therefore, if the Ordinary Share Pool assets produce income from shares and securities, that income will not be shared with the New "B" Shareholders and vice versa.

It is the intention of the Board and the Manager to commence the payment of regular dividends as soon as possible after the issue of the New "B" Shares, and will also aim to pay special dividends where significant realisations occur from the sale of portfolio assets from the New "B" Share Pool.

Share buy-back policy - New "B" Shares

Although it is anticipated that the New "B" Shares will be admitted to the premium segment of the Official List and to trading on the London Stock Exchange's market for listed securities, there is likely to be an illiquid market and in such circumstances New "B" Shareholders may find it difficult to sell their Shares in the market. In order to try to improve the liquidity in the New "B" Shares, the Company will operate a share buy-back policy. The Company may repurchase shares which Shareholders wish to sell, at a discount of no more than 5% to net asset value per New "B" Shares, less transaction costs payable to market makers and stockbrokers. Any purchase of New "B" Shares will be subject to authority from Shareholders, the Listing Rules, having the necessary cash resources and distributable reserves available for the purchase and the Board believing it to be in the best interests of the Company at the relevant time. New "B" Shares bought back by the Company may be cancelled or held in treasury for later sale in the market. New "B" Shares which have not been held for five years before disposal will no longer qualify for income tax relief and, therefore, any upfront income tax reliefs obtained

on subscription will be subject to clawback by HMRC. Shareholders should seek professional advice in relation to any disposal of Shares. The Company has an authority to buy back up to 14.99% of the issued New "B" Share capital of the Company at the time of purchase.

Reporting to Shareholders

The Directors believe that communication with Shareholders is important. In addition to announcements being released through a Regulatory Information Service, Shareholders will receive a copy of the Company's annual report and accounts (expected to be published in April each year) and a copy of the Company's interim results (expected to be published in September each year).

The Board is looking to reduce the cost and environmental impact of production and circulation of Shareholder documents where practical. As a result of an increasing number of Shareholders expressing an interest in accessing annual and half-yearly reports electronically, the Company introduced a process for electronic communications.

In the Application Form Investors can request that hard copies of the annual and half-yearly reports are posted to them. Otherwise, an email or a letter will be sent to Shareholders to notify them that such documents are available for download on the Company's website, which will reduce the number of documents printed and sent by post.

Corporate Governance

The UK Corporate Governance Code published by the Financial Reporting Council in April 2016 (the "Code") applies to the Company. The section in the Code headed "Comply or Explain" acknowledges that in relation to smaller listed companies some of the provisions of the Code will be disproportionate or less relevant and that externally managed investment companies typically have a board structure which may affect the relevance of certain of its provisions. The Board considers that reporting against the principles and recommendations of the AIC Code and by reference to the AIC Guide (which incorporates the Code) will provide better information to shareholders.

Accordingly, the Company has complied with, and will continue to apply the recommendations of the AIC Code and the relevant provisions of the Code save that (i) new Directors do not receive a full, formal and tailored induction on joining the Board (such matters are addressed on an individual basis as they arise), but any newly appointed Director will be given a comprehensive introduction to the Company's business (including, where appropriate, meeting the Company's advisers) and full details of duties and obligations are provided at the time of appointment and are supplemented by further details as necessary, (ii) the Company does not have a chief executive officer or a senior independent Director (although the Chairman is an independent director), (iii) the Company does not have an internal audit function at this time as the Directors do not consider that an internal audit would be an appropriate control for this VCT (although the Company has conducted a formal review as to whether there is a need for such a function); (iv) as all the Directors are non-executive, it is not considered appropriate to appoint a remuneration committee; and (v) the Company does not have a nomination committee (as these matters are dealt with by the Board).

In light of the responsibilities retained by the Board and the Audit Committee and of the responsibilities delegated to the company secretary, the Company has not appointed a chief executive, deputy chairman or a senior independent non-executive director.

Status of the Company

The Company is not authorised by the FCA. However, the Company has registered itself as a small registered internally managed alternative investment fund manager under the Alternative Investment Fund Managers Regulations. As a VCT, the Company needs to meet a number of conditions set out in tax legislation in order for tax reliefs to apply.

Taxation and HMRC approval

The Directors intend to manage the Company's affairs in order that it continues to comply with the legislation applicable to VCTs. In this regard Philip Hare & Associates LLP has been appointed to advise on tax matters generally and, in particular, on VCT status. HMRC granted the Company approval as a VCT, and Philip Hare & Associates LLP will assist the Manager (but report directly to the Board) in monitoring VCT status and maintaining full approval. The Company has received approval from HMRC that the Company is approved as a Venture Capital Trust, and has received confirmation that the New "B" Shares will be regarded as eligible shares.

Life of the Fund

The Directors envisage that the Company should not have a fixed life. However, the Articles contain provision for the Directors to propose a resolution for Shareholders after the fifth anniversary of the last share allotment to vote on a process for winding-up the Company or some other means of distributing Shareholders' capital and income, in accordance with applicable VCT legislation. The Directors will also consider a possible earlier return of funds to Shareholders on either share class if market conditions present an appropriate opportunity to do so.

Part 1 - Costs of the Offer, Annual Fees, Expenses and Offer Price

Costs of the Offer

PROMOTER FEE

For its role as promoter of the Offer, the Manager will charge the Company a Promoter Fee of 5.5% of the monies subscribed (and, where any Adviser Charge is being facilitated by the Company on behalf of the Investor, or is being paid directly by an Investor a Promoter Fee of 3% of the monies subscribed (which excludes the amount of any Adviser Charge), plus in each case VAT if applicable). Out of its fees, the Manager (not the Investors) will be responsible for paying all of the costs of the Offer including initial and trail commission (as described under the paragraph headed "Commission" below) to intermediaries (where permitted).

The number of New "B" Shares issued under the Offer will be determined by the "blended" issue cost. Applicants will have a different issue cost attributable to their application for New "B" Shares under the Offer depending on the level of Promoter Fee and Adviser Charges agreed with their financial adviser, or any commission which is permitted to be paid to financial intermediaries, in all cases adjusted for any early discount. The Manager has also agreed to reduce the Promoter Fee in respect of Applications accepted under the Offer by an amount equal to any Loyalty Investment Incentive or Early Investment Incentive discount applicable in relation to an Application. The Manager may further agree to waive any part of its fee in respect of any specific investors or group of investors for the benefit of such investors. The benefit of any Investment Incentive discount or any waiver will be applied to reduce the costs applied to those investors by an equivalent amount, thereby increasing the number of New "B" Shares to be allotted to such investors.

In addition, provided that 'execution-only' intermediary continues to act for the Investor and the Investor continues to be the beneficial owner of the New "B" Shares, and subject to applicable laws and regulations, an annual trail commission of up to 0.5% of the NAV per New "B" Share will be payable. This annual trail commission will be payable until the earlier of (i) the fourth anniversary of the closing of the Offer and (ii) the IMA between the Company and the Manager being terminated. Initial commission and trail commission will be payable by the Manager out of its Promoter Fee.

Income tax relief is available on the total amount subscribed for New "B" Shares (including the amounts used to pay the Promoter Fee but not including the amount of any Adviser Charge to be facilitated by the Company prior to subscription for New "B" Shares), subject to VCT Rules, personal circumstances and changes in the availability of tax reliefs.

The fee structure is based on the relevant applicable rules of the FCA and HMRC as they apply at the date of this document. In the event that there is a change in these rules that affect this fee structure, the Directors reserve the right to make amendments to the fee structure outlined in this document.

ADVISER CHARGE

Commission is generally not permitted to be paid to authorised financial advisers who provide a personal recommendation to UK retail clients on investments in VCTs. Instead of commission being paid by the Company, a fee will usually be agreed between the adviser and the Investor for the advice and related services ("Adviser Charge"). This fee can either be paid directly by the Investor to the intermediary or, if it is a one off fee, and does not exceed an amount equal to 4.5% of the monies remitted to the Company with an Investor's Application, may be made by the Company. If the payment of the Adviser Charge is to be made by the Company on behalf of the Investor, then the Investor's financial adviser is required to specify the amount of the charge on the Application Form.

COMMISSION

Commission is permitted to be paid to intermediaries under FCA rules in respect of execution only clients (where no advice or personal recommendation has been provided). Such intermediaries who, acting on behalf of their clients, return valid Application Forms bearing their FCA number will usually receive an initial commission of 2.5% of the monies subscribed by their clients under the Offer and no trail commission, or 2% of the monies subscribed by their clients under the Offer and provided that the intermediary continues to act for the Investor and the Investor continues to be the beneficial owner of the New "B" Shares, and subject to applicable laws and regulations, an annual trail commission of up to 0.5% of the NAV per New "B" Share. This annual trail commission will be payable until the earlier of (i) the fourth anniversary of the closing of the Offer and (ii) the IMA between the Company and the Manager being terminated. Initial and trail commission will be payable by the Manager out of its Promoter Fee.

Out of its Promoter Fee, the Manager (not the Investor) will be responsible for paying all the costs of the Offer, including initial and trail commission to intermediaries (where applicable).

Other Fees

TRANSACTION FEES

The Manager will be entitled to charge the underlying investee companies fees for arrangement and structuring and, to the extent that other services are provided, additional fees may be agreed. For the avoidance of doubt, these fees are not borne by the Company. Subject to FCA inducement and conflict of interest rules, fees may be paid to introducers in respect of the introduction of transactions.

ANNUAL FEES/EXPENSES AND ANNUAL RUNNING COSTS

Under the terms of the IMA, the Manager and the Company have agreed that in relation to those third party costs which comprise the Annual Running Costs, in the Initial Period those Annual Running Costs will be borne by the New "B" Share Pool. After the end of the Initial Period, the Ordinary Share Pool and the New "B" Share Pool will be allocated their share of the Company's Annual Running Costs (pro-rata to the net asset value of the respective share pool).

Each of the Directors, including the Chairman, is paid an annual fee of £12,750, amounting in aggregate to no more than £75,000 per annum.

Since the Manager will have responsibility for overseeing the administration of the Company as a whole, it has agreed with the Company to cap the Annual Running Costs allocated to the New "B" Share Pool, with the costs so allocated not to exceed 3% of the net asset value of the New "B" Share Pool. The Manager has also agreed after the Initial Period (during which no

Annual Running Costs will be borne by the Ordinary Share Pool) to cap the Annual Running Costs allocated to the Ordinary Share Pool at 3% of the net asset value of the Ordinary Share Pool. In each case the Manager will indemnify the Company to give effect to the caps in favour of each of the respective share pool.

Unless otherwise agreed by the Manager and the Company, all costs and expenses (including any VAT) incurred by the Manager in the proper performance of its duties under the IMA will be borne by the Company.

Details of the Offer

It is proposed to raise up to £20 million by means of the Offer, being the principal offer of £10 million and the over-allotment facility of a further £10 million which may be utilised at the Board's discretion where it believes it is in the best interests of the Company to do so. Subscription amounts are payable in full, by cheque or bankers' draft or electronic transfer, on subscription. The Offer will open on 9 May 2018 and is expected to close no later than 5.00 p.m. on 5 April 2019. The Offer may close before this date in the event that the maximum subscription is reached. The closing date of the Offer, and the deadline for receipt of applications for the final allotment, may be extended by the Directors at their absolute discretion to a date no later than 3 May 2019.

It is intended that the Company will allot New "B" Shares as soon as the Minimum Subscription Threshold has been met. This is expected to occur during summer 2018.

The Offer is not underwritten. The maximum net proceeds of the Offer, assuming full subscription and a Promoter Fee on all such subscriptions of 5.5% (with the over-allotment facility fully utilised) will be approximately £18,900,000. The Company will pay the Manager a Promoter Fee on the value of accepted applications for New "B" Shares under the Offer.

The profile of a typical Investor is a UK tax resident individual who seeks a venture capital strategy with a focus on the payment of regular dividends from realisations of growth capital investments with sufficient income and capital available to be able to commit an investment in the Company for at least five years and who is attracted by the income tax relief available for a VCT investment.

Applications will be accepted on a "first come, first served" basis (provided cheques are not post-dated), subject always to the discretion of the Directors. If the Offer is over-subscribed (or over-subscribed after use of the over-allotment facility), an Applicant's application may be rejected or may be accepted for fewer Shares than the number actually applied for. In these cases, the amount paid on application, or the balance, will be returned, without interest, by cheque sent through the post at the Applicant's risk to the address stated in the Applicant's Application Form. Investors are, therefore, encouraged to submit their Application Forms early in order to be confident that their subscriptions will be successful. Multiple applications are permitted.

The minimum application level under the Offer is £3,000. The maximum aggregate investment in all VCTs in any one tax year on which tax relief is available is £200,000 per Investor (spouses have separate limits and, therefore, together can invest up to £400,000 in aggregate in each tax year).

The Offer may not be withdrawn after dealings in the New "B" Shares have commenced.

The full terms and conditions of application are set out in Part 6 of this document. An Application Form (including details of the application procedure) accompanies this document.

The Pricing of the Offer

The number of New "B" Shares to be issued to each Applicant will be calculated based on the following Pricing Formula (rounded down to the nearest whole New "B" Share):

Number of New "B" Shares	=	Amount remitted with the Application, less:	÷	Latest published NAV per New "B" Share ⁽²⁾
		(i) Promoter Fee ⁽¹⁾ and		
		(ii) Adviser Charge (if any)		

⁽¹⁾ less any reduction for Loyalty Investment Incentive and/or the Early Investment Incentive and/or commission waived by financial intermediaries (where applicable)

⁽²⁾ until a NAV per New "B" Share is published, this will be deemed to be £1. Any subsequent NAV per New "B" Share will be adjusted for any dividends declared that are ex-dividend but not yet paid, as appropriate.

The Manager has agreed to reduce its Promoter Fee in respect of Applications accepted under the Offer by an amount equal to any Loyalty Investment Incentive and/or the Early Investment Incentive applicable in relation to an Application. The Manager may further agree to waive any part of its Promoter Fee in respect of any specific investors or group of investors for the benefit of such investors. The benefit of any incentive discount on the Promoter Fee or any waiver of all or part of the Promoter Fee, or the waiver of any commissions by financial intermediaries, will be applied to reduce the costs applied to the relevant investor, thereby increasing the number of New "B" Shares to be allotted to such investor.

Illustrative examples (based on a subscription under the Offer of £10,000 and an illustrative NAV per New "B" Share of 100p)

- (i) Promoter Fee (Execution-only Transaction) of 3% (5.5% with 2.5% financial intermediary commission waived) = £300
Number of New "B" Shares = $(10,000 - 300 - 0) \div 1 = 9,700$
- (ii) Promoter Fee (direct Applicant) of 5.5% = £550
Adviser Charge = £nil
Number of New "B" Shares = $(10,000 - 550) \div 1 = 9,450$
- (iii) Promoter Fee (advised) of 3% = £291
Example Adviser Charge to be facilitated = £300
Number of New "B" Shares = $(10,000 - 291 - 300) \div 1 = 9,409$
- (iv) Promoter Fee (Execution-only Transaction with both Early Investment Incentive and Loyalty Investment Incentive applied) of 2.25% (5.5% with 2.5% financial intermediary commission waived and with the Early Investment Incentive of 0.25% and Loyalty Investment Incentive of 0.5%) = £225
Example Adviser Charge = £nil
Number of New "B" Shares = $(10,000 - 225 - 0) \div 1 = 9,775$

It should be noted that the example Adviser Charges set out above have been provided to illustrate the pricing of the Offers and should not be considered as a recommendation as to the appropriate levels of Adviser Charges.

The Offer Price applying in respect of an Investor, therefore, varies according to whether or not the Investor is eligible for the Loyalty Investment Incentive and/or Early Investment Incentive discount and whether any commission or Adviser Charge is to be payable from the monies provided with the Application.

Income tax relief should be available on the total amount subscribed, subject to VCT regulations and personal circumstances, which in each of the above examples would be £3,000 (£10,000 at 30%) apart from (iii), where it would be £2,910 (£9,700 at 30%).

Allotment, Dealings and Settlement

Application has been made to the UK Listing Authority for the New "B" Shares to be issued pursuant to the Offer to be admitted to the premium listing on the Official List and to the London Stock Exchange for the New "B" Shares to be admitted to trading on its main market for listed securities.

It is intended that an initial allotment of New "B" Shares will be made as soon as the Minimum Subscription Threshold has been met. Successful applicants will be notified by post. It is expected that the Admission of New "B" Shares will become effective, and that trading in those Shares will commence, within ten Business Days of their allotment.

New "B" Shares will be issued in registered form and will be freely transferable in both certificated and uncertificated form. It is anticipated that definitive share certificates will be issued within ten Business Days of each allotment.

New "B" Shares will be capable of being transferred by means of the CREST system. Investors who wish to take account of the ability to trade their New "B" Shares in uncertificated form (and who have access to a CREST account) may arrange through their professional adviser to convert their holding into dematerialised form.

Part 2 - Taxation Considerations for Investors

1 Individual Shareholders

The following is a summary of the tax benefits available to VCTs and their individual shareholders who are either Qualifying Subscribers or Qualifying Purchasers.

The tax treatment of investors in VCTs will depend on their individual circumstances. Investors who are in any doubt as to their tax position are recommended to take professional advice.

A number of tax benefits are available to individuals, aged 18 or over, who invest in shares in a VCT. The tax benefits available to those individuals are different, depending on whether the individual subscribes for shares or acquires shares otherwise than by way of subscription. There is also a limit (the Qualifying Limit) on the amount which, in any tax year, an individual may invest in VCTs which will qualify for any tax benefits. The current limit is £200,000 in any one tax year. Spouses have separate limits and each, therefore, has an annual limit of £200,000 meaning that together spouses may invest up to £400,000 per tax year in aggregate.

Investments in VCTs in excess of the Qualifying Limit will not be eligible for any tax benefits.

Set out below is a summary of the tax benefits available to Qualifying Subscribers and Qualifying Purchasers.

2 Qualifying Subscribers (not Qualifying Purchasers)

The tax relief is available on aggregate investments in VCTs of up to £200,000 in any one tax year. Where advantage is taken of this relief, a Qualifying Subscriber will be able to obtain total initial tax relief of up to 30% of the amount of his investment, as shown in the table below.

Maximum effect of initial tax relief

	No VCT tax relief	30% income tax relief
Initial investment	£10,000	£10,000
30% income tax relief	—	(£3,000)
Effective current cost of the investment	£10,000	£7,000

Relief from income tax, which will be available in the year of subscription, cannot exceed the amount which reduces the income tax liability of the Qualifying Subscriber in that year to nil. Relief may not be available if there is a loan linked with the investment.

Relief will not be available, or, where given, will be withdrawn, either in whole or in part, where there is any disposal (except on death) of the shares (or of an interest in them or right over them) before the end of the period of five years beginning with the date on which the shares were issued to the Qualifying Subscriber.

With effect from 6 April 2014 income tax relief is not available in respect of a subscription for shares in a VCT where the investor has sold shares in that VCT and the sale was conditional upon the subscription, or the subscription was conditional upon the sale, or the subscription was made within six months of the sale (before or after). This will also have effect in relation to a subscription for shares in a VCT which is deemed to be a successor or predecessor of the VCT because there has been a merger of VCTs, or a restructuring of a group of companies of which the VCT is a member, where the merger or restructuring takes place within two years other than for bona fide commercial reasons. The measure will not affect subscriptions for shares where the monies being subscribed represent dividends which the investor has elected to reinvest.

3 Qualifying Subscribers and Qualifying Purchasers

The reliefs below are only available on investments up to a maximum of £200,000 in VCTs in any one tax year.

3.1 Exemption from capital gains tax

Any gain or loss accruing to Qualifying Subscribers or Qualifying Purchasers on a disposal of shares in a company which was a VCT at the time he, or she, acquired the shares, and remained a VCT throughout his, or her, period of ownership, will neither be a chargeable gain, nor an allowable loss, for the purposes of capital gains tax.

3.2 Exempt dividend income

Dividend income will be exempt from tax. No tax credits will be repayable in respect of dividends paid.

3.3 Procedure for obtaining income tax reliefs available to Qualifying Subscribers

All Qualifying Subscribers will automatically be provided with certificates enabling them to claim income tax relief. The certificate will specify details of the shareholder, the date on which the shares were issued and the amount paid for the shares, and also will certify that the shares have been issued to a Qualifying Subscriber, and that certain other conditions are met to the best of the VCT's knowledge and belief. The relief may not be available unless the Qualifying Subscriber holds such a certificate.

The investor may use the certificate to claim income tax relief either by obtaining from HMRC an adjustment to his tax coding under the PAYE system or by waiting until the end of the tax year and using a Self Assessment Tax Return to claim the relief.

Dividends received on shares acquired in VCTs up to the qualifying maximum value of £200,000 per tax year need not be shown in the investor's Self Assessment Tax Return.

4 Loss of VCT Status

The following is a summary of the tax consequences for VCTs and their shareholders resulting from a loss of VCT status.

4.1 VCTs

Exemption from corporation tax on chargeable gains will not be available in relation to any gain realised after the VCT status is lost (and on any gain realised by the VCT if approval is deemed never to have been given).

4.2 Qualifying Subscribers

Income tax relief on investment

Where VCT approval is treated as never having been given, or where it is withdrawn before the shares have been held for five years, the relief will be withdrawn in full, and the Qualifying Subscriber will be assessed to tax in the tax year in which the relief was given on an amount equal to that relief. Interest on overdue tax may arise.

4.3 Qualifying Subscribers and Qualifying Purchasers

1. Exempt dividend income

Dividend income will not be exempt from tax if the dividend is paid in respect of profits or gains arising or accruing in any accounting period in which the VCT is not approved as such.

2. Exemption from capital gains

Where VCT approval is treated as never having been given, any gains and losses arising on a disposal of shares in the VCT will be taxable and allowable in the ordinary way. Where VCT approval is withdrawn at any time (whether or not the shares have been held for five years), the Qualifying Subscriber or the Qualifying Purchaser will be treated as having disposed of his shares immediately before the VCT ceased to be approved, for an amount equal to their market value at that time, and as having immediately reacquired them at that value. Thus, any capital gain/loss up to that date will be exempt from tax, but any gains/losses arising after that date will be taxable in the ordinary way.

Part 3 - Taxation of the Company

Qualifying as a VCT

1. In order to qualify as a VCT, a company must satisfy the following conditions in each accounting period:
 - i. it must be approved as a VCT by HMRC;
 - ii. it must not be a close company;
 - iii. throughout the period, each class of its ordinary share capital has been quoted on a regulated market in the EU or European Economic Area;
 - iv. it must derive its income in the period wholly or mainly from shares or securities;
 - v. it must have at least 70% by VCT value of its investments throughout the period in newly issued shares or securities (where the securities are not redeemable within five years of issue) comprised in Qualifying Holdings. From 1 January 2020, this requirement will increase to 80%. At least 70% by value of those Qualifying Holdings must be in shares which carry no preferential rights to assets on a winding-up nor any rights to be redeemed, although they may have certain preferential rights to dividends (until 6 April 2018, for investments made before 6 April 2018 from funds raised prior to 6 April 2011, the requirement is that at least 30% of Qualifying Holdings must be in ordinary shares which have no preferential rights to dividends or to assets on a winding-up, nor any rights to be redeemed);
 - vi. it must have at least 10% by VCT value of each of its investments in any Qualifying Company in ordinary shares which carry no preferential rights;
 - vii. it must not invest more than 15% by VCT value (at the point of investment or addition to an existing investment) in a single company or group (other than a VCT, or other similar company);
 - viii. it must generally not retain more than 15% of the income which it derives from shares and securities in the period;
 - ix. it must not make an investment in a company which causes that company to receive more than £5 million of State Aid investment (including from VCTs) in the twelve months ending on the date of the investment. It is expected that, subject to EU approval (not yet received), from 6 April 2018 a company which is deemed to be a Knowledge Intensive Company may receive up to £10 million of State Aid investment in a twelve month period;

- x. it must not return capital to shareholders before the third anniversary of the end of the accounting period during which the subscription for shares occurs;
 - xi. no investment made by the Company in a company which causes that company to receive more than £12 million (£20 million if the company is deemed to be a Knowledge Intensive Company) of State Aid investment (including from VCTs) over the company's lifetime;
 - xii. no investment can made by the Company in a company whose first commercial sale was more than seven years prior to the date of investment, except where previous Risk Finance State Aid was received by the company within those seven years or where a turnover test is satisfied;
 - xiii. no funds received from an investment into a company can be used to acquire another existing business or trade; and
 - xiv. the VCT must not make a Non-qualifying Investment other than those specified in section 274 ITA 2007.
2. In order, however, to facilitate the launch of VCTs, there is a relaxation of some of these tests during the Company's first and, in the case of the test referred to in paragraph 1(v) above, up to the third accounting period (see below under the heading, "Approval as a VCT").

Qualifying Holdings

3. A Qualifying Holding consists of shares in, or securities of, a Qualifying Company (see below under heading "Qualifying Companies" for further details). A Qualifying Company must:
- i. be unquoted (which will, in the case of a company which was unquoted at the time of the VCT's investment, be deemed to be the case for a further five years after the company ceases to be unquoted). Companies whose shares are traded on AIM or NEX are treated as unquoted;
 - ii. have gross assets of £15 million or less immediately pre-investment and £16 million or less immediately post investment (in the case of companies which have Qualifying Subsidiaries (see below), the test is applied on a group basis);
 - iii. must have a permanent establishment in the UK;
 - iv. not be able to control (whether on its own or together with a connected person) any company which is not a Qualifying Subsidiary;
 - v. not be controlled by another company (on its own or together with a connected person);
 - vi. have fewer than 250 employees immediately pre-investment (500 for a Knowledge Intensive Company); and

- vii. not have any property managing subsidiaries which do not fall into the definition of relevant Qualifying Subsidiaries (see below).

The company's first commercial sale must be no more than seven years before the VCT's investment (ten years for a Knowledge Intensive Company) prior to the date of investment, except where previous Risk Finance State Aid was received by the company within those seven years or where a turnover test is satisfied. Funds received from an investment by a VCT cannot be used to acquire another existing business or trade.

Qualifying Investments are limited to aggregate investments of £5 million in the twelve months ending on the date of the investment (from 6 April 2018, £10 million for a Knowledge Intensive Company) and £12 million in total (£20 million for a Knowledge Intensive Company).

Qualifying Companies

4. A Qualifying Company is a company which exists to carry on one or more Qualifying Trades (see below) or is the parent of a trading group, where each of its subsidiaries is a Qualifying Subsidiary and the group as a whole is not engaged in non-qualifying activities (see below).
5. For the purposes of the Qualifying Holdings test in paragraph 3(iv) above, a subsidiary will be a relevant Qualifying Subsidiary if at least 90% of its issued share capital and its voting power is directly owned by the Qualifying Company or by a wholly owned Qualifying Subsidiary. A relevant Qualifying Subsidiary can also be a wholly owned subsidiary of a 90% owned subsidiary. Certain other tests as to the distribution of the subsidiary's profits and assets on a winding-up must also be satisfied.
6. In the case of the Qualifying Holdings test in paragraph 3(iv) above, a subsidiary will be a Qualifying Subsidiary if the majority of its issued share capital is owned by the Qualifying Company and the other tests are also satisfied.
7. A trade will be a Qualifying Trade only if it does not to a substantial extent include non-qualifying activities (non-qualifying activities include dealing in land or shares, providing financial services or activities which are largely land-based, such as farming, hotels and nursing homes). In the case of a company which is preparing to carry on a Qualifying Trade, the Qualifying Trade must begin within two years of the issue to the VCT of the shares or securities, and must continue thereafter.
8. The risk-to-capital condition introduced in Finance Act 2018 requires that the Qualifying Company has long term growth plans and that the investment made by the VCT is at risk.

Approval as a VCT

9. A VCT must be approved as such at all times by HMRC. Approval has effect from the time specified in the approval, which cannot be earlier than the time at which the application for approval is made.
10. A VCT cannot be approved until the relevant tests (see above under the heading, "Qualifying as a VCT") have been satisfied throughout the most recent complete accounting period of the VCT and HMRC is satisfied that the tests will be satisfied in relation to the accounting period of the VCT which is current at the time the application is made.

11. However, in order to facilitate the launch of VCTs, HMRC may grant provisional approval to a VCT, notwithstanding that not all the relevant tests are satisfied at the time of the application, provided that HMRC is satisfied that the tests will be satisfied within a certain period. In particular, HMRC may grant provisional approval if it is satisfied that:
 - i. the relevant tests in paragraphs 1(iii), 1(iv), and 1(vii) to 1(xiv) under the heading, "Qualifying as a VCT" above will either be satisfied in the accounting period current when the application for approval is made or the following accounting period;
 - ii. the relevant test in paragraphs 1(v) under the heading, "Qualifying as a VCT" above, will be satisfied in relation to any accounting period beginning not more than three years after the time when approval is given, or if earlier, when it has effect; and
 - iii. the relevant tests in paragraphs 1(iii) to 1(xiv) under the heading, "Qualifying as a VCT" above, will continue to be satisfied in all subsequent accounting periods.
12. The Company has been granted approval as a VCT effective from admission of the Ordinary Shares to the Official List and to trading on the main market of the London Stock Exchange. The Company has received provisional approval from HMRC that the New "B" Shares will also be regarded as eligible shares.

Withdrawal of approval

13. Approval as a VCT may be withdrawn by HMRC if the relevant tests (see above under the heading, "Approval as a VCT") are not satisfied. Withdrawal of approval generally has effect from the time when notice of withdrawal is given to the VCT but, in relation to capital gains of the VCT only, can be backdated to not earlier than the first day of the accounting period commencing immediately after the last accounting period of the VCT in which all the tests were satisfied. The actions proposed to be taken by the Company in the case of a withdrawal of approval will be announced through a regulatory information service.
14. Where provisional approval is withdrawn, approval is deemed to have never been given. The taxation consequences of approval being deemed to have never been given are set out above under the heading "Loss of VCT status".

The Ordinary Shares and the New "B" Shares also separately carry the right to vote on matters affecting their own class.

3.2.2 *Rights attaching to the different share classes*

Under the Articles, the Company has two share classes, the Ordinary Shares and the New "B" Shares.

The Company shall identify which assets and liabilities of the Company belong to the Ordinary Share Pool and the New "B" Share Pool and shall maintain records so that the assets attributable to the Ordinary Shares and the "B" Shares can at all times, be separately identified.

After the end of this period, each of the Ordinary Share Pool and the New "B" Share Pools will be allocated a share of the Company's Annual Running Costs (pro-rata to the net asset value of the respective share pools). The performance incentive fees that relate separately to the Ordinary Shares and the New "B" Shares will be attributed solely to the relevant share pool. Likewise, the annual management fee that relates to the New "B" Shares will be attributed solely to the New "B" Share Pool.

5 Material Contracts

The following constitutes a summary of the principal contents of each material contract entered into by the Company, otherwise than in the ordinary course of business, in the two years immediately preceding the date of this document or which are expected to be entered into prior to Admission. Save as set out below, there are no other contracts, not being contracts entered into in the ordinary course of business, entered into by the Company which contain any provision under which the Company has an obligation or entitlement which is material to the Company as at the date of this document:

5.1 Offer Agreement

Under an offer agreement dated 9 May 2018 (the "Offer Agreement") and made between the Company (1), the Directors (2), the Sponsor (3) and the Manager (4), the Sponsor has agreed to act as sponsor to the Offer and the Manager as agent of the Company has agreed to use its reasonable endeavours to procure subscribers under the Offer. Under the agreement, the Manager will be paid a Promoter Fee on all monies subscribed under the Offer (in the case of advised Investors this amount being after the deduction of any Adviser Charge payable to financial intermediaries on behalf of the Applicants) less (i) an amount equal to any Early Investment Incentive or Loyalty Investment Incentive applicable in respect of that application, and (ii) any amount that the Manager has agreed to waive in respect of that Application.

The Manager will pay all costs and expenses of or incidental to the Offer and Admission including initial and trail commissions payable to financial intermediaries.

Under the Offer Agreement, which may be terminated by the parties in certain circumstances, the Company, the Directors and the Manager have given certain warranties and indemnities. Warranty claims must be made by no later than three months after the date of the second annual general meeting of the Company following the closure of the Offer at which Shareholders approve the Company's accounts. The warranties and indemnities are in usual form for a contract of this type and the warranties are subject to limits of an amount equal to the total proceeds raised by the Company pursuant to the Offer (for the Manager) and a year's director's fees for each Director. The Company has also agreed to indemnify the Sponsor in respect of its role as sponsor and under the Offer Agreement. The Offer Agreement may be terminated, inter alia, if any statement in the Prospectus is untrue, any material omission from the Prospectus arises or any breach of warranty occurs.

5.2 Investment Management Agreement

Under an investment management agreement between the Company and the Manager dated 9 May 2018 (the "IMA"), the Company has agreed to appoint the Manager as its Alternative Investment Fund Manager, with the Manager agreeing to provide management services to the Company on a discretionary basis in respect of the investments to be made by the Company in accordance with the provisions of the IMA. The Manager will also provide administration services to the Company.

Under the IMA, the Manager will be entitled to an annual management fee of 2% of the net asset value of the New "B" Share Pool. The annual management fee is payable quarterly in arrears.

In relation to the Annual Running Costs of the Company, it has been agreed that for an initial period of three years (commencing immediately on the first day of the relevant quarter of the Company in which the first New "B" Shares have been issued under the Offer) all of those costs will be allocated to the New "B" Share Pool only, and after the end of that period, such costs will be allocated to the Ordinary Share Pool and the New "B" Share Pools pro-rata to their respective net asset values. The Manager and the Company have further agreed to cap such costs allocated to the Ordinary Shares at 3% of the net asset value of the Ordinary Share Pool, and those costs allocated to the New "B" Shares at 3% of the net asset value of the New "B" Shares Pool. The Manager will indemnify the Company for any excess over these caps, with an amount equal to such excess either being paid by the Manager to the Company or refunded by way of a reduction to its fees under the IMA (with any such payment or refund to be allocated to the relevant share pool). Annual Running Costs means the annual running costs and expenses incurred by the Company in its business including irrecoverable VAT but excluding (a) exceptional and extraordinary costs; (b) any performance fees in relation to any class of Shares; and (c) any costs relating solely to the making, holding or realisation of investments in the Ordinary Share Pool or the New "B" Share Pool.

The Manager will also receive a Performance Incentive Fee in relation to the New "B" Share Pool of an amount equal to 20% of the Shareholder Proceeds arising in respect of any Performance Period, provided that the payment of such a fee shall also be conditional upon (i) a return being generated on the New "B" Share Pool for New "B" Shareholders in respect of that Performance Period of more than 5% per annum (pro-rated if that period is less than a year) and (ii) that such a return calculated for the period from the date of the IMA to the end of the relevant Performance Period exceeds 5% per annum. For the avoidance of doubt, no Performance Incentive Fee will be payable to the extent that the Shareholder Proceeds paid by the Company to the holders of the New "B" Shares have been justified by reference to distributable reserves otherwise attributable to the Ordinary Shares or the Ordinary Share Pool (as permitted in accordance with the Articles).

Further to a side letter to the IMA, the Manager has agreed that the management of investments in the Ordinary Share Pool shall be delegated by the Manager back to the Independent Board for the duration of the IMA, or (if shorter) the period of the existence of the Ordinary Share Pool. In relation to the delegation of the necessary obligations and responsibilities back to the Independent Board in relation to this, the Company has agreed to indemnify the Manager for any losses or claims which the Manager may suffer as a result of the Company failing to comply with undertakings and responsibilities delegated to it by the Manager, or the Manager being alleged, or found to, be in breach of the terms of the IMA or any applicable laws or regulations in its capacity as the Alternative Investment Manager of the Company.

Under the IMA the Manager has also agreed that it will arrange for investments (or any documents of title relating to them) to be lodged for safe custody with the Company or any other delegate of the Company.

Under the terms of the IMA, the Manager has the right to appoint (and remove) a director and an observer to the Board.

The Manager will be entitled to charge the underlying investee companies fees for arrangement and structuring and, to the extent that other services are provided, additional fees may be agreed.

Unless otherwise agreed by the Manager and the Company, all costs and expenses (including any value added tax charged to the Manager in respect of such costs or expenses for which it is not entitled to claim credit or set off) incurred by the Manager in the proper performance of its duties under the IMA shall be borne by the Company.

The Manager's appointment under the IMA will take effect on the date on which the first New "B" Shares are issued and will continue until terminated by either party giving to the other not less than 12 month's previous written notice at any time after the fifth anniversary of the date of the IMA, subject to earlier termination in certain circumstances.

5.3 Directors' Letters of Appointment

Each of the Directors has entered into a letter of appointment with the Company (each dated 5 April 2018). Each appointment is for a term of three years from the date of the respective letter. Each party can terminate the relevant appointment by giving to the other no less than three months' notice in writing. Under those letters each Director is required to perform the duties normally attendant on the office of a non-executive director, including the review of the performance of the Company's portfolio of investments and consideration of investment opportunities (which are not expected to include executive duties or responsibilities). Each director will also be a member of the CAC, which is responsible for the management of the Company.

With effect from 1 January 2016 each Director is entitled to a fee of £12,750 per annum (which is inclusive of all travelling, subsistence and other expenses). In relation to his membership of the CAC, as remuneration for that role, each of the Director (and former directors) will receive a share of any sums paid out under the performance incentive fees in relation to the Ordinary Shares depending on the terms and conditions of the relevant category of fee - see below).

In respect of the last reporting period to 31 December 2017, each of John Hustler, Charles Breese and Richard Roth received a fee of £12,750.

5.4 Agreement relating to the Performance Incentive Fees for the Ordinary Share Pool

By a letter agreement dated 30 July 2007 between the Company and its directors (James Otter, John Hustler and Charles Breese) (the "2007 Letter Agreement") the Company established the Commercial Advisory Committee (CAC) and appointed it to act as the investment manager of Company and the Ordinary Share Pool (a role previously fulfilled by Octopus Investments Limited). The terms of the 2007 Letter Agreement were amended and restated by an agreement dated 7 May 2014 between the parties to the 2007 Letter Agreement, and the arrangements in the 2007 Letter Agreement (as amended) were then varied on 7 October 2015, with a new agreement between the Company, those directors who were parties to the 2007 Letter Agreement and Richard Roth (a new director appointed on 7 October 2015) replacing the previous agreement (the "Performance Incentive Fees Agreement").

Under the Performance Incentive Fees Agreement performance incentive fees shall be payable to the past, present and future members of the CAC in relation to the performance of the Ordinary Shares. The performance incentive fees payable in relation to the Ordinary Shares comprises of two distinct performance incentive fees: the "Accrued Performance Incentive Fee" and the "Further Performance Incentive Fee" (as described below).

In respect of the period to 31 December 2014, an aggregate performance incentive fee on the Ordinary Share class of up to £702,000 (the "Accrued Performance Incentive Fee") shall be payable to James Otter (a former director of the Company who was also a member of the CAC), Charles Breese and John Hustler, in equal proportions (with the liability to pay a director his share of such fee being extinguished if the fee is due for payment five years after his ceasing to be a member of the CAC). The amount of the Accrued Performance Incentive Fee shall be 25% of any dividends and capital distributions returned to shareholders, which in total exceed the sum of 80p per Ordinary Share. This includes dividends paid to the date of the Prospectus on the Ordinary Shares, being 24.25p per Share, excluding any initial tax relief on the subscription for those Shares (the "Hurdle"). As a result of this, for every £1 potentially distributable in excess of the Hurdle, 80p shall be distributed to shareholders and 20p shall be paid as the Accrued Performance Incentive Fee, up until an amount of 114.65p per Ordinary Share has been distributed to Ordinary Shareholders, after which no further payment is payable in respect of the Accrued Performance Incentive Fee or otherwise under the terms of the 2007 Letter Agreement (as amended).

The Accrued Performance Incentive Fee shall be paid to James Otter, Charles Breese and John Hustler at the same time as payments are made to the Ordinary Shareholders.

All distributions by way of dividends and capital distributions in relation to the Ordinary Share class shall count towards the Accrued Performance Incentive Fee and where non cash dividends are declared, the Company's auditors shall assess their value by reference to a distribution per share.

Following payment in full of the Accrued Performance Incentive Fee, a further performance incentive fee shall be payable to the CAC in relation to the period after 7 October 2015 (the "Further Performance Incentive Fee"). The Further Performance Incentive Fee shall be calculated as one-ninth of sums returned to Ordinary Shareholders by way of dividends and capital distributions of whatever nature, which in total exceed the "Further Hurdle" (excluding any initial tax relief on the subscription for the Ordinary Shares).

The "Base Figure" for the Further Hurdle shall be 90.4p per Ordinary Share, and shall be increased by a sum equal to notional interest thereon, at the rate of 1.467% per quarter from 1 January 2015, compounded with quarterly rests. For the purposes of determining the increase in the Base Figure, the amount on which notional interest is to accrue in each quarter shall be reduced by the amount of all sums returned to Ordinary Shareholders by way of dividends and capital distributions in the previous quarter. Shareholders will need to have received distributions of 114.65p per Ordinary Share, together with the amount to take account of notional interest as calculated above, before any Further Performance Incentive Fee is payable.

If the CAC consider it necessary to engage external advisors in support of managing its portfolio, the costs of this will be borne by the Company.

The Further Performance Incentive Fee shall be divided among such members of the CAC (past, present and future) who have been members of that committee since the 7 October 2015, on a pro rata basis, linked to the relative amount of time since the date of the 7 October 2015 agreement for which each individual has been a member of the CAC. An individual will not be entitled to payment of any of Further Performance Incentive Fee if he ceased to be a member of the CAC in certain conditions, or ceased to be a member of the CAC more than five years before the payment of any amount of Further Performance Incentive Fee becomes due.

For the purposes of the Further Performance Incentive Fee, the method of determining distributions will follow that used in calculating the Accrued Performance Incentive Fee.

Since 31 December 2017 (being the end of the last financial period of the Company for which financial information has been published), there has been no significant change in the financial or trading position of the Company.

8 Takeovers and Mergers

A. MANDATORY TAKEOVER BIDS

The City Code on Takeovers and Mergers (the "City Code") applies to all takeover and merger transactions in relation to the Company and operates principally to ensure that shareholders are treated fairly and are not denied an opportunity to decide on the merits of a takeover and that shareholders of the same class are afforded equivalent treatment. The City Code provides an orderly framework within which takeovers are conducted and the Panel on Takeovers and Mergers (the "Panel") has now been placed on a statutory footing. The Takeovers Directive was implemented in the UK in May 2006 and since 6 April 2007 has effect through the CA 2006. The Takeovers Directive applies to takeovers of companies registered in an EU member state and admitted to trading on a regulated market in the EU or the EEA States.

The City Code is based upon a number of General Principles which are essentially statements of standards of commercial behaviour. General Principle One states that all holders of securities of an offeree company of the same class must be afforded equivalent treatment and if a person acquires control of a company the other holders of securities must be protected. This is reinforced by Rule 9 of the City Code which requires that a person, together with persons acting in concert with him, who acquires shares carrying voting rights which amount to 30% or more of the voting rights to make a general offer. "Voting rights" for these purposes means all the voting rights attributable to the share capital of a company which are currently exercisable at a general meeting. A general offer will also be required where a person, who, together with persons acting in concert with him, holds not less than 30% but not more than 50% of the voting rights, acquires additional shares which increase his percentage of the voting rights. Unless the Panel consents, the offer must be made to all other shareholders, be in cash (or have a cash alternative) and cannot be conditional on anything other than the securing of acceptances which will result in the offeror and persons acting in concert with him holding shares carrying more than 50% of the voting rights.

There are not in existence any current mandatory takeover bids in relation to the Company.

B. SQUEEZE OUT

Section 979 of the CA 2006 provides that if, within certain time limits, an offer is made for the share capital of a company, the offeror is entitled to acquire compulsorily any remaining shares if it has, by virtue of acceptances of the offer, acquired or unconditionally contracted to acquire not less than 90% in value of the shares to which the offer relates and in a case where the shares to which the offer relates are voting shares, not less than 90%, of the voting rights carried by those shares. The offeror would effect the compulsory acquisition by sending a notice to outstanding shareholders telling them that it will compulsorily acquire their shares and then, six weeks from the date of the notice, pay the consideration for the shares to the relevant company to hold on trust for the outstanding shareholders. The consideration offered to shareholders whose shares are compulsorily acquired under the CA 2006 must, in general, be the same as the consideration available under the takeover offer.

C. SELL OUT

Section 983 of the CA 2006 permits a minority shareholder to require an offeror to acquire its shares if the offeror has acquired or contracted to acquire shares in a company which amount to not less than 90% in value of all the voting shares in the company and carry not less than 90%, of the voting rights. Certain time limits apply to this entitlement. If a shareholder exercises its rights under these provisions, the offeror is bound to acquire those shares on the terms of the offer or on such other terms as may be agreed.

Part 6 - Terms and Conditions of Application

The following terms and conditions apply to the Offer.

Save where the context otherwise requires, words and expressions defined in this document have the same meanings when used in these Terms and Conditions of Application, the Application Form and the Application Procedure.

1. The right is reserved by the Company to reject any Application in whole or in part and/or scale down, or to accept, any Application. The contract created by the acceptance of any Application will be conditional on (i) the Minimum Subscription Threshold having been met by 5.00 p.m. on 22 March 2019; and (ii) the Admission to the Official List and to trading on the London Stock Exchange's market for listed securities of the New "B" Shares in the Company becoming effective, unless otherwise so resolved by the Board. If any Application is not accepted, or if any contract created by acceptance does not become unconditional, or if any Application is accepted for a lower amount than the amount applied for, or the Offer is fully subscribed or otherwise closed, the Application monies or the balance of the amount paid on Application (including, any Adviser Charge in respect of that part of the Application) will be returned without interest (i) by post or (ii) by bank transfer (depending on how the funds were provided) at the risk of the Applicant. In the meantime, application monies will be held in a designated bank account in the name of the Company. The Offer is open from 9 May 2018 and is expected to close no later than 5.00 p.m. on 5 April 2019 (unless it has been fully subscribed by an earlier date). The Board reserves the right to close the Offer earlier or extend the Offer to a date not later than 3 May 2019 at its discretion.
2. By completing and delivering an Application Form in respect of the Offer, you:
 - (a) offer to subscribe the monetary amount stated on the Application Form (less any Adviser Charge agreed to be facilitated) in respect of the Company for such number of New "B" Shares in the Company (or such lesser amount for which your Application is accepted and subject to paragraph 12 below) obtained by applying the Pricing Formula.
 - (b) direct, or authorise your financial adviser to direct, the Registrars to send documents of title for the number of New "B" Shares for which your Application is accepted, and/or a crossed cheque for or, if appropriate, return by bank transfer, any monies returnable, by post at your risk to your address as set out on your Application Form (or, in respect of a direction to issue shares to a nominee, documents of title will be sent to the nominee);

- (c) in consideration of the Company agreeing that it will not, prior to the Offer closing, offer any New "B" Shares for subscription to any persons other than as set out in the Prospectus, agree that your Application may not be revoked and that this paragraph constitutes a separate collateral contract with the Company which will become binding upon receipt of your Application Form, duly completed, by the Receiving Agent;
- (d) warrant that you will provide a cheque/bankers' draft with that Application Form, or arrange for a bank transfer to be made on the same day as you deliver the Application Form, and that your remittance will be honoured on first presentation and agree that, if such remittance is not so honoured, you will not be entitled to receive share certificates for the New "B" Shares in the Company applied for or to enjoy or receive any rights or distributions in respect of such shares unless and until you make payment in cleared funds for such shares and such payment is accepted by the Company (which acceptance shall be in the Company's absolute discretion and may be on the basis that you indemnify it against all costs, damages, losses, expenses and liabilities arising out of, or in connection with, the failure of your remittance to be honoured on first presentation) and that at any time prior to unconditional acceptance by the Company of such late payment in respect of such shares, that Company may (without prejudice to its other rights) treat the agreement to allot such shares as void and may allot such shares to some other person, in which case you will not be entitled to any refund or payment in respect of such shares (other than return of such late payment);
- (e) agree that all cheques and bankers' drafts may be presented for payment upon receipt and any definitive document of title and any monies returnable to you may be retained pending clearance of your remittance and the completion of any verification of identity required by the ML Regulations and that such monies will not bear interest;
- (f) undertake to provide satisfactory evidence of identity and source of funds within such reasonable time (in each case to be determined in the absolute discretion of the Company and the Manager as promoter) to ensure compliance with the ML Regulations;
- (g) agree that, in respect of those New "B" Shares for which your Application has been received and processed and not rejected, acceptance of your Application shall be constituted by the Company instructing the Registrars to enter your name on its share register;
- (h) agree that, having had the opportunity to read this Prospectus, you are deemed to have had notice of all information and representations concerning the Company, the Offer and the New "B" Shares contained herein (whether or not so read);

- (j) agree that all Applications, acceptances of Applications and contracts resulting therefrom under the Offers shall be governed by and construed in accordance with English Law and that you submit to the jurisdiction of the English Courts and agree that nothing shall limit the right of the Company to bring any action, suit or proceedings arising out of or in connection with any such Applications, acceptances of Applications and contracts in any other manner permitted by law or in any court of competent jurisdiction;
- (k) authorise the Company, the Receiving Agent, the Registrar or the Manager or any other person authorised by them, as your agent, to do all things necessary to effect registration of any New "B" Shares subscribed for by you into your name and authorise any representatives of the Company, the Registrars or the Manager to execute any document required therefore and to enter your name on the register of members of the Company;

- (m) warrant that, in connection with your Application, you have observed and complied with the laws of all requisite territories, obtained any requisite governmental or other consents, complied with all requisite formalities and paid any issue, transfer or other taxes due in connection with your Application in any territory and that you have not taken any action which will or may result in the Company, the Registrar, the Receiving Agent or the Manager or any of their respective agents infringing any laws or acting in breach of the regulatory or legal requirements of any territory directly or indirectly in connection with the Offer or in consequence of any acceptance of your Application;
- (n) confirm that you have read and complied with paragraph 3 below and warrant as provided therein;
- (o) confirm that you have reviewed the restrictions contained in paragraph 4 below and warrant as provided therein;
- (p) warrant that you are not under the age of 18 years;
- (q) agree that your Application Form is addressed to the Receiving Agent, and forwarded to the address shown on the Application Form;
- (r) warrant that if you sign the Application Form on behalf of somebody else or yourself and another or others jointly or a corporation you have the requisite power to make such investments as well as the authority to do so and such person will also be bound accordingly and will be deemed also to have given the confirmations, warranties and undertakings contained in these Terms and Conditions of Application and undertake (save in the case of signature by an authorised financial adviser on behalf of the investor) to enclose a power of attorney or a copy thereof duly certified by a solicitor with the Application Form;

- (s) warrant that you are not subscribing for the New "B" Shares using a loan which would not have been given to you or any associate, or not given to you or any associate on such favourable terms, if you had not been proposing to subscribe for the New "B" Shares;
 - (t) warrant that the New "B" Shares are allotted to you for bona fide commercial purposes and not as part of a scheme or arrangement, the main purpose of which, or one of the main purposes of which, is the avoidance of tax;

 - (x) agree that allocations of New "B" Shares will be rounded down to the nearest whole share and that surplus amounts will not be aggregated to purchase (an) additional share(s) in the Company, and only refunds in excess of £1 will be issued; and
 - (y) consent to the information provided on the Application Form being provided to the Receiving Agent and the Registrars to process shareholding details and send notifications to you.
3. No action has been or will be taken in any jurisdiction by, or on behalf of, the Company which would permit a public offer of New "B" Shares in the Company in any jurisdiction where action for that purpose is required, other than the United Kingdom, nor has any such action been taken with respect to the possession or distribution of this Prospectus other than in the UK. No person receiving a copy of this Prospectus or an Application Form in any territory other than the United Kingdom may treat the same as constituting an invitation or offer to him or her, nor should he or she in any event use such Application Form unless, in the relevant territory, such an invitation or offer could lawfully be made to him or her or such Application Form could lawfully be used without contravention of any registration or other legal requirements. It is the responsibility of any person outside the United Kingdom wishing to make an application for New "B" Shares to satisfy themselves as to the full observance of the laws of any relevant territory in connection therewith, including obtaining any requisite governmental or other consents, observing any of the formalities requiring to be observed in such territory and paying any issue, transfer or other taxes required to be paid in such territory.
4. The New "B" Shares have not been, and will not be, registered under the United States Securities Act 1933, as amended, or under the securities laws of any state or other political subdivision of the United States of America ("USA"), and may not be offered or sold in the USA, its territories or possessions or other areas subject to its jurisdiction. In addition, the Company has not been, nor will be, registered under the United States Investment Company Act of 1940, as amended. No Application will be accepted if it bears an address in the USA.

5. Multiple Applications under the Offer are permitted and will be processed in order of receipt. Applications will be accepted on a first come, first served basis, subject always to the discretion of the Board. The right is reserved to reject in whole or in part and scale down any Application or any part thereof including, without limitation, Applications in respect of which any verification of identity which either of the Company or the Receiving Agent consider may be required for the purposes of the ML Regulations has not been satisfactorily supplied. The Board in its absolute discretion may decide to close, suspend or extend the Offer to a date up to and including a date no later than 3 May 2019. The Offer shall be suspended if the issue of such New "B" Shares in the Company would result in a breach of the Listing Rules, the Company not having the requisite shareholder authorities from time to time to allot New "B" Shares or a breach of any other statutory provision or regulation applicable to the Company. Dealings prior to the issue of certificates for New "B" Shares will be at the risk of Applicants. A person so dealing must recognise the risk that an Application may not have been accepted to the extent anticipated or at all.
6. The rights and remedies of the Company and the Manager under these Terms and Conditions of Application are in addition to any rights and remedies which would otherwise be available to either of them, and the exercise or partial exercise of one will not prevent the exercise of others.
7. Applicants who are Existing Shareholders or Existing Seneca Investors will receive a Loyalty Investment Incentive discount equal to 0.5% of the total monies remitted with the Application (excluding any applicable Adviser Charge) in relation to valid Applications accepted by the deadline of 5.00 p.m. on 31 May 2018. Such incentive will be applied through the Pricing Formula (as referred to in Part 1 of this document). The determination by the Board as to the eligibility of an Applicant as an Existing Shareholder or an Existing Seneca Investor will be final. Such incentive will be applied through the Pricing Formula (as referred to in Part 1 of this document).
8. Applicants will receive an Early Investment Incentive discount equal to 0.25% of the total monies remitted with the Application (excluding any applicable Adviser Charge) in relation to valid Applications accepted by the deadline of 5.00 p.m. on 31 May 2018. Such incentive will be applied through the Pricing Formula (as referred to in Part 1 of this document).
9. Intermediaries providing 'execution-only' services that, in respect of any application accepted from a client for whom the 'execution-only' intermediary acts, will be offered initial commission (subject to a maximum of 2.5% of the amount subscribed for New "B" Shares by their clients). Execution-only intermediaries may waive all or part of the initial commission offered for the benefit of their client (such amount will be taken into account in determining the number of New "B" Shares to be allotted under the Pricing Formula i.e. more New "B" Shares will be allotted than would be the case where commission is not waived and is paid to the 'execution-only' intermediary). In addition, provided that the 'execution-only' intermediaries' client continues to hold the New "B" Shares, such intermediaries will normally be paid an annual trail commission of 0.5% of the total monies remitted with the Application (excluding any applicable Adviser Charge). This annual trail commission will be payable until the earlier of (i) the fourth anniversary of the closing of the Offer and (ii) the IMA between the Company and the Manager being terminated, with the amounts expected to be payable as at 31 December 2019, 2020, 2021 and 2022. Commissions will only be paid to intermediaries who have made a claim in relation to the commission and have provided the Company with all the requisite information and only if, and to the extent that, commissions are permitted under legislation and regulations.

Trail commission will not be payable if the 'execution-only' intermediary subsequently gives advice in respect of a holding. The Company should be immediately notified that trail commission payments should cease.

10. The Company will, through the Receiving Agent, provide facilitation services in respect of any Adviser Charges (together with any VAT thereon, if applicable) agreed between an investor and his or her financial adviser (subject to a maximum facilitation amount equal to 4.5% of the total monies remitted with the Application). Any additional Adviser Charges in excess of the amount agreed to be facilitated will not be facilitated and will need to be paid directly by the Investor.
11. If the investor and the financial adviser agree that an Adviser Charge is to be facilitated by the Company, an Application Form must be countersigned by the financial adviser to confirm (i) that the facilitation amount has been agreed; and (ii) that the financial adviser has read and agrees to be bound by the Terms and Conditions of Application that apply to the Offer. The charging of VAT on an Adviser Charge is the sole responsibility of the financial adviser. Should any facilitated charge undertaken by the Company exclude the payment of any such VAT, the Investor will, at all times, remain solely responsible to make up such VAT deficit (if any) to the financial adviser. If the amount provided in an Investor's subscription monies is less than the aggregate amount required to meet both the application for subscription of New "B" Shares pursuant to the Offer, and the Adviser Charge to be facilitated by the Company (subject to a maximum amount equal to 4.5% of the total monies remitted with the Application), the amount of the subscription for New "B" Shares will be reduced accordingly. Alternatively, if the maximum amount possible to be facilitated (equal to 4.5% of the total monies remitted with the Application) would be exceeded, the amount of the Adviser Charge to be facilitated will be reduced to 4.5% of the total monies remitted with the Application.
12. The Manager has agreed to reduce its Promoter Fee in respect of Applications accepted under the Offer by an amount equal to any Loyalty Investment Incentive discount or Early Investment Incentive discount as applicable in relation to an Application. The Manager may further agree to waive any part of the Promoter Fee in respect of any specific or group of investors for the benefit of such investors.
13. The maximum amount to be raised in relation to the Company is £10 million (or £20 million if the over-allotment facility is utilised in full). The Offer will close once the Company has reached its maximum subscription of £10 million (or £20 million if the over-allotment facility has been utilised in full).
14. The Offer will be suspended if at any time the Company is prohibited by statute or other regulations from issuing New "B" Shares.
15. The Company reserves the right to make the Offer available through one or more platforms (subject to information being received in respect of any Applicant and the intended underlying beneficial holder of New "B" Shares as may be requested by or on behalf of the Company). Further, the Company may issue New "B" Shares directly to a nominee through CREST if requested by the Applicant (as provided for on the Application Form) and agreed by the Company.

16. The Company may make one or more revised or additional Application Form(s) available and any additional terms and conditions thereon shall be deemed to be included herein as part of these Terms and Conditions of Application.
17. The right is also reserved to treat as valid any Application not complying fully with these Terms and Conditions of Application for the Offer or not in all respects complying with the Application Procedure. In particular, but without limitation, the Company may accept Applications made otherwise than by completion of an Application Form where the Applicant has agreed in some other manner acceptable to the Company to apply in accordance with these Terms and Conditions of Application. Applications which are not accompanied by cheques or bankers' drafts available for immediate presentation or by other valid payment means (such that the application monies are received by the Receiving Agent by the time the Application is processed), will be dealt with at the Board's discretion. If any dispute arises as to the date or time on which an Application is received, the Board's determination shall be final and binding.
18. The Application Form forms part of these Terms and Conditions of Application.
